

1. Diagnostic / Therapeutic

- 1.01 Computed Tomography Technologist (CT Tech)
- 1.02 MRI Technologist
- 1.03 Radiology Technologist (Registered)
- 1.04 Mammography Technologist
- 1.05a Nuclear Medicine Technologist
- 1.05b PET Technologist / Nuclear Medicine
- 1.06 EEG Technician
- 1.07 Ultrasonographer
- 1.08 Electrophysiology Technologist****
- 1.09 Cardiovascular Technologist
- 1.10 Perfusionist
- 1.11 Vascular / Angiography Tech - Special Procedures
- 1.12 Echo Technician
- 1.13 EKG / Cardio Technician
- 1.14a Audiology Technician / Assistant
- 1.14b Audiologist
- 1.15 Respiratory Care Technician (Certified)
- 1.16 Respiratory Care Practitioner (Registry-Eligible)
- 1.17 Respiratory Care Practitioner (Registered)
- 1.18 Speech Language Pathologist
- 1.19 Occupational Therapy / Physical Therapy Aide
- 1.20 Occupational Therapy Assistant (Certified)
- 1.21 Occupational Therapist (Registered)
- 1.22 Physical Therapy Assistant
- 1.23 Physical Therapist
- 1.24 Vocational Rehabilitation Counselor
- 1.25 Recreation Therapist
- 1.26a Exercise Specialist
- 1.26b Exercise Physiologist
- 1.26c Athletic Trainer - Certified
- 1.27 Genetics Counselor
- 1.28 Radiation Therapist
- 1.29 Dosimetrist
- 1.30 Dialysis Technician
- 1.31 Orthopedic (Cast) Technician
- 1.32 Polysomnographic Technician (Non-Registered)
- 1.33 Polysomnographic Technologist (Registered)
- 1.34a Dental Assistant
- 1.34b Expanded Functions Dental Auxiliary
- 1.35 Dental Hygienist
- 1.36 Esthetician
- 1.37 Massage Therapist

2. Nursing / Medical

- 2.01 Medical Assistant
- 2.02 Health Unit Coordinator
- 2.04 Nursing Assistant, Certified (NAC)
- 2.05 Nurse Technician****
- 2.06a LPN - Acute Care
- 2.06b LPN - Clinic
- 2.06c LPN - Home Care / Hospice

- 2.07a RN - Acute Care
- 2.07b RN - Clinic
- 2.07c RN - Home Care / Hospice
- 2.08 Research RN
- 2.09 Infusion Therapist - RN
- 2.10a Nurse Practitioner - Primary Care
- 2.10b Nurse Practitioner - Specialized
- 2.11 Certified Nurse Midwife
- 2.13 Anesthesia Assistant
- 2.14 Anesthesia Technician
- 2.15 Certified Registered Nurse Anesthetist (CRNA)
- 2.16a Physician Assistant - Primary Care
- 2.16b Physician Assistant - Specialized
- 2.16c Physician Assistant - Surgical
- 2.17 Staffing Coordinator
- 2.18 Surgery Scheduler
- 2.19 Operating Room / Surgical Services Aide
- 2.20 Operating Room Technician
- 2.22 ER Technician
- 2.23 Patient Care / Discharge Coordinator
- 2.24 Clinical Nurse Specialist
- 2.25 Telemetry / Monitor Technician
- 2.26 Delivery Room Technician
- 2.27 Employee Health Nurse
- 2.28 Trauma Coordinator
- 2.29 Hospitalist
- 2.30 Dentist
- 2.31 Bariatric Program Coordinator

3. Home Care and Hospice

- 3.01 Home Care and Hospice Director
- 3.02 Home Care Director
- 3.03 Home Care Team Manager
- 3.05 Home Care or Hospice Volunteer Coordinator
- 3.06 Bereavement Coordinator - Hospice / Home Care
- 3.08 Home Health Aide (Certified)

5. Social Work / Behavioral Health

- 5.01 Social Worker - Bachelor's
- 5.02a Social Worker - Master's
- 5.02b Licensed Independent Clinical Social Worker (LICSW)****
- 5.03 Social Work Manager
- 5.04 Chaplain
- 5.05 Mental Health Practitioner
- 5.06 Mental Health Specialist
- 5.07 Psychologist
- 5.08 Behavioral Health Director
- 5.09 Chemical Dependency Counselor
- 5.10 Psychiatric ARNP
- 5.11 Child Life Specialist
- 5.12 Patient Advocate - Non RN

6. Laboratory

- 6.01 Laboratory Aide
- 6.02 Lab Assistant
- 6.03 Phlebotomist
- 6.05 Medical Technologist (ASCP)
- 6.06 Medical Lab Technician
- 6.07 Cytotechnologist
- 6.08 Cytogenetic Technologist
- 6.09a Histology Technician
- 6.09b Histology Technologist
- 6.10 Point of Care Testing Coordinator

7. Pharmacy

- 7.01 Pharmacy Assistant
- 7.02 Pharmacy Technician
- 7.03 Pharmacist - Intern (First Year)
- 7.04 Pharmacist - Resident
- 7.05 Pharmacist
- 7.06 Pharmacy Clinical Coordinator

8. Optical

- 8.01a Ophthalmic Technician (Non-Certified)
- 8.01b Ophthalmic Technician (Certified)
- 8.02 Licensed Optician
- 8.03 Optometrist

9. Support Services

- 9.01 Central Services Supervisor
- 9.02 Biomedical Technician
- 9.03 Building Maintenance Worker / Mechanic
- 9.04 Maintenance Engineer
- 9.05 Maintenance Engineer - Senior
- 9.06 Stationary Engineer
- 9.07 Laundry / Linen Worker
- 9.08 Housekeeper
- 9.09a Sterile Processing Technician (Non-Certified)
- 9.09b Sterile Processing Technician (Certified)
- 9.09c Endoscopy Technician
- 9.10 Central Service Distribution Technician
- 9.11 Storekeeper
- 9.12 Transporter
- 9.13 Parking Attendant
- 9.15 Security Guard (Unarmed)

10. Food Service

- 10.01 Food Service Cashier
- 10.02 Food Service Worker
- 10.03 Food Preparer
- 10.04a Cook
- 10.04b Sous Chef
- 10.04c Chef
- 10.05 Dietetic Assistant
- 10.06 Diet Technician
- 10.07 Dietitian - (Registered)
- 10.08 Chief Clinical Dietitian

Job Descriptions

GENERAL GUIDELINES . . .

- Job descriptions denote the **primary focus of the job**, not necessarily all the duties that might be performed.
- Although many job descriptions specify a **college degree** as a typical qualification, a degree is not an absolute necessity. Equivalent knowledge and experience may be substituted for a degree in many instances. When a degree is mentioned as a typical qualification, it is assumed to be in a related discipline. A bachelor's degree is implied unless otherwise stated.
- Most job descriptions specify a **minimum length of experience as a typical qualification**. The number of years should be used as a guideline only. **Job-related experience is always implied.**
- Some jobs specify a **particular level in a typical job hierarchy** (e.g., Accountant - Senior). All job titles in this survey which do not identify a level (e.g., Senior) are referring to the intermediate level. Organizations with a one-level job (no junior or senior level) will usually be able to match their job to the intermediate level.
- The **intermediate level** is considered a fully trained, fully proficient level.

1. DIAGNOSTIC / THERAPEUTIC

1.01 Computed Tomography Technologist (CT Tech)

Performs computerized tomographic procedures
• Performs CAT scans, radiographic procedures at a technical level, including a variety of technical procedures which require independent judgment for CAT scanning diagnosis • *Typically requires high school graduation or GED equivalent, completion of a formal radiologic technology training at an AMA-approved school, and registration with the American Registry of Radiologic Technologists (ARRT).*

1.02 MRI Technologist

Performs procedures for the Magnetic Resonance Imaging Department • *Typically requires registration with the American Registry of Radiologic Technologists (ARRT), and 2 years of experience.*

1.03 Radiology Technologist (Registered)

Performs professional duties involved in a variety of technical procedures to apply prescribed radiation for diagnostic purposes • *Typically requires an AA degree in radiologic technology and registration with the American Registry of Radiologic Technologists (ARRT).*

1.04 Mammography Technologist

Responsible for the operation of a dedicated mammography unit to perform radiographic procedures
• Typical duties including operating equipment, applying prescribed ionizing radiation for radiologic diagnosis, assisting physicians with breast localizations, and administering opaque media • *Typically requires a 2-year radiologic technology program and registration with the American Registry of Radiologic Technologist (ARRT).*

1.05a Nuclear Medicine Technologist

Performs nuclear medicine tests for medical diagnoses
• Tests include scans of brain, salivary glands, thyroid, parathyroid, lungs, bones, liver, spleen, biliary tract, and cisternograms • Computes doses for intravenous and oral administration of radiopharmaceutical • Documents administration of radioactive material to patients • Performs quality control testing of equipment • *Typically requires a bachelor's degree in Nuclear Medicine and registration with the Nuclear Medicine Technology certification Board, the American Registry of Radiologic Technologists (ARRT), or the American Society of Clinical Pathology.*

1.05b PET Technologist / Nuclear Medicine

Under general direction, performs complex, dedicated PET (Positron Emission Tomography) examinations and develops nuclear medicine technology examination procedures through research • Examinations require assessing metabolic information, making decisions such as if additional transmission scans need to be performed, and troubleshooting equipment in a time-critical environment • *Requires a degree, certification in nuclear medicine approved by the American Registry of Radiologic Technologists (ARRT), or the CNMT Board, and a minimum of 2 years of experience in Nuclear Medicine, and 1 year working with dedicated positron emission tomography.*

1.06 EEG Technician

Independently performs EEG recordings, evoked response testing, polysomnographic recording, and monitoring additional physiological phenomena during patient testing • *Typically requires one year of college with emphasis on physical or biological science, certification by the American Board of Registration of Electroencephalographic Technologies, and 1 year experience as an EEG technician.*

1.07 Ultrasonographer

Using appropriate ultrasound equipment, produces and records data from scans for medical diagnostic purposes • Usually specializes in abdomen, small parts, and OB/GYN; echocardiograms and cardiac doppler examinations; or duplex doppler exams of the carotids and peripheral vasculature • Typically requires completion of a 2-4 year accredited ultrasound program, registration, and a minimum of 1 year experience for each discipline practiced.

1.08 Electrophysiology Technologist**

Provides technical assistance for arrhythmia procedures, including implantation of arrhythmia control devices (pacemakers and defibrillators), electrophysiology studies, and arrhythmia ablations • Oversees the development, implementation, integration, and evaluation of effectiveness of Electrophysiology patient protocols and outcomes • Typically requires training as a Radiologic Technologist, American Registry of Radiologic Technologists (ARRT) registration, and previous experience in general radiology and special procedures.

1.09 Cardiovascular Technologist

Responsible for assisting the physician in performing angiography, heart catheterizations, atherectomy studies, and mitral and aortic valvuloplasty • Typically requires 2 years of experience or completion of a cardiovascular invasive technology training program.

1.10 Perfusionist

Sets up and operates heart-lung machine to assume the functions of patient organs during surgery • Under surgeon's or anesthesiologist's direction, operates equipment to achieve bypass, coronary perfusion, recirculation or partial bypass, or to alter blood content, temperature or balance • Typically requires certification as a perfusionist.

1.11 Vascular / Angiography Tech - Special Procedures

Sets up, directs, and performs the technical procedures to apply prescribed ionizing radiation to all venous, arterial, and polytome studies • Includes assisting physician in diagnostic and interventional procedures of vascular organ systems • Typically requires training as a Radiologic Technologist, American Registry of Radiologic Technologists (ARRT) registration, and previous experience in general radiology and special procedures.

1.12 Echo Technician

Independently performs echocardiograms, cardiac Doppler, and color flow imaging tests • Typically requires completion of training program in echocardiography and ultrasound physics classes under the direction of an M.D., and 1 year experience in cardiac Doppler and color flow imaging.

1.13 EKG / Cardio Technician

Performs non-invasive cardiac testing (e.g., treadmill tests, ECGs, Holter scans) for inpatient and ambulatory populations • Typically requires completion of an accredited medical assistant course, cardiology lab experience or 3 months EKG experience.

1.14a Audiology Technician / Assistant

Under the supervision of a licensed audiologist, performs specified routine tasks and duties, including hearing screenings, provides assistance with diagnostic audiologic procedures, performs directed adjustment of hearing aids, implantable technology, and other amplification systems, manages device orders and repairs, and performs general administrative and technical duties which support the provision of audiologic care • Typically requires HS or GED equivalent; completion of an Audiology Assistant or Technician program or equivalent training and experience.

1.14b Audiologist

Performs routine and specialized audiology diagnostic procedures and test, reviews all results for quality assurance issues • This is a master's degree level position and typically requires Certificate of Clinical Competence (CCC-A).

1.15 Respiratory Care Technician (Certified)

Administers treatment prescribed by a physician for the care of patients with abnormalities associated with the process of breathing • May perform EKGs • Typically requires completion of approved 2 year program, certification by the State Department of Licensure and certified by NBRC (CRRT).

1.16 Respiratory Care Practitioner (Registry-Eligible)

Plans and administers treatment prescribed by a physician for the care of patients with abnormalities associated with the process of breathing • May perform EKGs • May test respiratory system • Typically requires completion of 2 year program, certification by the State Department of Licensure, and eligibility to become registered with the NBRC.

1.17 Respiratory Care Practitioner (Registered)

Provides respiratory assessment, support, treatment or diagnostic test for critical care, floor care, emergency room or outpatient as needed • May supervise operation of equipment or instruct in operation of equipment • May perform EKGs • Typically requires completion of 2 year program and NBRC registration.

1.18 Speech Language Pathologist

Responsible for evaluating and treating patients with communication, cognitive, and swallowing disorders • Interacts with appropriate clinical disciplines, physicians, and family members • Typically requires a minimum of 1 year of clinical experience.

1.19 Occupational Therapy / Physical Therapy Aide

Assists in preparing patients and equipment for therapy • Cleans treatment areas and stores equipment • Maintains department in orderly and prepared condition • May also transport patients, assist patients in crutch ambulation, and schedule appointments • Typically requires a high school diploma with previous hospital exposure desirable.

1.20 Occupational Therapy Assistant (Certified)

Works under OTR Supervisor providing patient treatment utilizing occupational therapy and skills to increase patient's level of functioning • Performs patient-related functions utilizing Occupational Therapy theory and practice with stroke or self-care referrals • Requires completion of approved program and certification by AOTA.

1.21 Occupational Therapist (Registered)

Plans, organizes, and participates in treatment program to rehabilitate patients • May work with physically and/or psychosocially disabled patients, as well as family members • Requires current State licensure.

1.22 Physical Therapy Assistant

Assists in preparing patients for treatments and performs selected treatments under the direction of a State-licensed physical therapist • Requires current State licensure.

1.23 Physical Therapist

Plans and administers treatments prescribed by a physician to patients with physical disabilities resulting from injury, disease or surgery • Uses techniques such as heat, electricity, water, massage and exercise • Requires current State licensure.

1.24 Vocational Rehabilitation Counselor

Implements, coordinates, and evaluates services for vocational rehabilitation patients, including assessments, vocational interviewing, consultation, education and research • Oversees job therapy experience program, including development of job sites • Responsible for communication with employers, vocational funding agencies, and other agencies • Provides clinical guidance to vocational rehab staff • Typically requires a master's degree in Vocational Counseling, certification as a Rehab Counselor, and 1 year of prior experience.

1.25 Recreation Therapist

Responsible for facilitating a patient's participation in a comprehensive Therapeutic Recreation Program as part of an overall Rehabilitation Program • Evaluates a patient's leisure lifestyle and provides goals and objectives directed at a therapeutically designed recreation/leisure orientated treatment which assist patients in attaining optimum level of functioning • Requires a BS in Therapeutic Recreation and typically national certification as a C.T.R.S.

1.26a Exercise Specialist

Works with patients in established programs, develops exercise prescriptions and protocols, assesses, monitors, supervises patient exercise therapy, educates and counsels patients, employees and families about risk factor modification, instructs patients in exercise therapy and use of equipment • Typically requires American College of Sports Medicine Exercise Test Technologist/Exercise Specialist Certification, and a BS in Exercise Science with training in Cardiac Rehabilitation.

1.26b Exercise Physiologist

Conducts fitness assessments, exercise prescriptions, and health and fitness consultations for patients in Cardiac Rehabilitation and/or members of a "wellness" center • Requires a master's degree in exercise physiology.

1.26c Athletic Trainer - Certified

Assesses, treats, and rehabilitates athletic injuries under the advice, consent, and prescription of a physician • Requires certification as a Certified Athletic Trainer.

1.27 Genetics Counselor

Coordinates, administers, and delivers medical genetics counseling services to patients and families • Typically requires a Master's of Science degree, graduation from an approved genetic counseling program, and certification by the American Board of Counseling Genetics.

1.28 Radiation Therapist

Administers therapeutic radiation treatments to cancer patients • Typically requires a 2 year degree and registration with the American Registry of Radiologic Technologists (ARRT).

1.29 Dosimetrist

Responsible for radiation therapy treatment planning • Interprets physician prescriptions and develops course of therapy • Typically requires ARRT registration in radiation therapy and completion of a training program in medical dosimetry.

1.30 Dialysis Technician

Responsible for maintenance, set-up, and cleaning of dialysis equipment • Stocks, maintains, and reorders supplies • Performs QA/Infection Control testing on machinery • Assist with patient care activities • Typically requires 1 year experience and/or LPN experience.

1.31 Orthopedic (Cast) Technician

Applies and removes orthopedic appliances, including casts, splints, and braces • Educates patients and staff regarding proper care and application of appliances • Assists physicians with pin removal, incision and drainage, setting fractures, joint injections, carpal tunnel release, and other procedures • Typically requires knowledge of sterile technique and of orthopedic supplies, 1 year of experience, and certification by the National Association of Orthopedic Technicians.

1.32 Polysomnographic Technician (Non-Registered)

Performs diagnostic tests to determine origin of sleep related disorders • Responsible for connecting patients to monitoring devices and sensors (such as EEG electrodes, respiratory movement sensors, penile tumescence monitors, etc.) for the purpose of collecting sleep disorder data • Typically requires 1 year training as a Polysomnographic Technician.

1.33 Polysomnographic Technologist (Registered)

Performs diagnostic tests to determine origin of sleep related disorders • Responsible for connecting patients to monitoring devices and sensors (such as EEG electrodes, respiratory movement sensors, penile tumescence monitors, etc.) for the purpose of collecting sleep disorder data • Tabulates and interprets data • Typically requires 1 year training as a Polysomnographic Technician and registration with the Board of Polysomnographic Technologists.

1.34a Dental Assistant

Assists dentists with oral surgery and other treatment • Prepares chairside areas by laying out instruments and material appropriate to scheduled procedures • Passes instruments, mixes compounds, applies rubber dams, provides assistance with crowns and bridges, endodontics and other procedures • Records dentist's findings • Changes barriers and sterilizes instruments • Typically requires graduation from an accredited dental assisting program or equivalent experience.

1.34b Expanded Functions Dental Auxiliary

Under the supervision of a licensed Dentist, performs chair side assistant duties in all phases of extractions, restoratives, endodontics, prosthodontics, and periodontal treatment • Responsible for monitoring the dental department to ensure that it is stocked, clean and the equipment is properly sterilized and is in good working order • Typically requires graduation from an accredited EFDA program and a minimum of 1 year experience.

1.35 Dental Hygienist

Assists dentist in providing oral healthcare to patients by cleaning, scaling, polishing teeth, and taking and processing x-rays • Records evaluations of mouth condition and extent of prophylaxis on dental chart to provide dentist with information for more complete diagnosis and subsequent treatment as needed • Advises and instructs patients on proper dental care and proper diet for good dental health • Typically requires graduation from an accredited program.

1.36 Esthetician

Provides facial dermatology procedures involving clinical and non-clinical aspects of skin care which includes various treatments such as deep cleansing facials, peels, Microdermabrasion, blackhead removal, and waxing • Markets and sales products and services • This position does not diagnose or prescribe medications • Generally requires graduate of a formal Esthetician training program, state licensure, and 1-2 years of experience.

1.37 Massage Therapist

Performs massage therapy techniques in a healthcare facility to control pain, reduce stress, and promote wellness • Obtains the basic medical history for a client, assesses any problems or conditions, and suggests appropriate massage techniques based on current health of client • May require a high school diploma or equivalent and requires certification as a massage therapist.

2. NURSING / MEDICAL

2.01 Medical Assistant

Assists physician with all back office duties • Takes patient's history • Administers injections • Assists in examinations and procedures • Performs laboratory and radiological examinations • May have a specialty area • This position requires knowledge of clinical standards, practices, and procedures, and 2 or more years of experience as a Medical Assistant. This is the certified level.

2.02 Health Unit Coordinator

Handles clerical duties on nursing unit, including answering telephone, relaying messages, keeping records, directing visitors, distributing mail, and transcribing physicians' orders • May assist in patient care and order supplies • Typically requires previous experience and familiarity with medical terminology.

2.04 Nursing Assistant, Certified (NAC)

Assists professional nursing personnel by performing tasks involving direct and indirect patient care, treatment and maintenance of the nursing unit • Requires State NAC certification.

2.05 Nurse Technician**

Performs direct patient care consistent with his/her nursing program preparation • Functions under the direct supervision of a Registered Nurse • Typically requires current enrollment as a senior in an approved school of nursing.

2.06a LPN - Acute Care

Delivers and executes daily routine nursing care and services to patients in an acute care setting which may include passing of medicine, vital sign assessment, assisting higher level nursing staff, etc. • Works as a team member under the direction of a Registered Nurse to provide quality care that is focused on the comfort and well being of the patient and family • Makes independent decisions in the execution of daily routine duties • Requires the graduation of an accredited LPN course and current state licensure • Previous acute care nursing experience is preferred.

2.06b LPN - Clinic

Provides technical assistance to physicians in the outpatient management and care of patients • Takes brief history of patient and makes physical assessment of patient's conditions • Triage patient telephone requests • Counsels patients • Calls in pharmacy refills • Requires graduation from an accredited LPN course and current state licensure • Previous nursing experience in a medical office setting is preferred.

2.06c LPN - Home Care / Hospice

Under the direct supervision of a Registered Nurse, assists in the implementation of the nursing care plan, including preventative and rehabilitative nursing procedures, observation and reporting of signs and symptoms, patient/family teaching, discharge planning, and record keeping • Requires graduation from an accredited LPN course and current State licensure • Previous home care nursing experience preferred.

2.07a Registered Nurse - Acute Care

Assesses, plans, coordinates, and renders skilled nursing care to patients in an acute care setting • Oversees, delegates and evaluates the delivery of patient care provided by lower level practitioners • Requires substantial specialized knowledge, judgement and skill based upon the principles of biological, physiological, behavioral and sociological sciences • Uses critical thinking skills in making decisions regarding patient care • Requires graduation from an accredited school of nursing and current state licensure • Previous acute care nursing experience is preferred.

2.07b Registered Nurse - Clinic

Provides technical assistance to physicians in the outpatient management and care of patients • Takes brief history of patient, and makes physical assessment of patient's condition • Triage patient telephone requests • Counsels patients • Calls in pharmacy refills • Requires graduation from an accredited school of nursing and current state licensure • Previous nursing experience in a medical office setting is preferred.

2.07c Registered Nurse - Home Care / Hospice

Assesses, plans, and renders skilled nursing care to patients in an isolated home setting • Uses considerable judgement and skill in making patient care decisions • Coordinates continued patient care with a multidisciplinary team of physical therapists, occupational therapists, speech language pathologist, and social workers • Requires previous home care nursing experience, graduation from an accredited school of nursing, and current state licensure.

2.08 Research Registered Nurse

Implements research protocols with human subjects including providing treatments, procedures, etc. gathering data, and participating in the analysis of the data • Typically requires RN licensure, several years of experience and exposure to research practices which is usually obtained in a bachelor's / master's level nursing curriculum.

2.09 Infusion Therapist - RN

Administers IV therapy treatments • Chooses and monitors venipuncture and/or catheter insertion sites • Educates patients and caregivers on IV procedures and care • Ensures patient has necessary solutions and equipment • Typically requires State RN licensure and 1-3 years IV experience.

2.10a Nurse Practitioner - Primary Care

Provides primary healthcare services to hospital and clinic patients • Performs examinations; performs or orders diagnostic tests; establishes diagnosis; prescribes medications; instructs patients and family members about continuing care • Does not include specialized or surgical practitioners • Typically requires current State RN licensure and licensure as an Advanced Registered Nurse Practitioner (ARNP).

2.10b Nurse Practitioner - Specialized

Provides primary healthcare services to hospital and clinic patients • Performs examinations; performs or orders diagnostic tests; establishes diagnosis; prescribes medications; instructs patients and family members about continuing care • Does not include general or surgical practitioners • Typically requires current State RN licensure and licensure as an Advanced Registered Nurse Practitioner (ARNP).

2.11 Certified Nurse Midwife

Provides antepartum, intrapartum, and postpartum care to uncomplicated OB patients • Delivers babies • Assists physicians in procedures such as C-Sections and GYN surgeries • Performs GYN patient exams; provides patient education • Typically requires a bachelor's degree in Nursing, completion of an accredited midwifery program, a minimum of 1 year of professional nursing experience in an OB setting, and a current State Registered Nurse license and Certified Nurse Midwife by the ACNM.

2.13 Anesthesia Assistant

Cleans, assembles, and stocks materials, anesthesia equipment and machines • Conducts light maintenance of anesthesia equipment • Typically requires training or experience in medical equipment maintenance.

2.14 Anesthesia Technician

Prepares, operates, and maintains anesthesia equipment such as ventilators, cell savers, balloon pumps, patient monitors, blood gas analyzers, arterial lines and CVP lines • Assists medical staff with technical problems related to the delivery of anesthesia to patients including setting up monitors and troubleshooting monitor malfunctions • Typically requires an associate of arts degree in related field or 2 years of experience as an Anesthesia Assistant.

2.15 Certified Registered Nurse Anesthetist (CRNA)

Performs a clinical evaluation of patients and formulates an anesthesia care plan • Administers and monitors general and intravenous regional anesthesia to patients presenting for surgery within established protocols • Closely monitors patient and modifies anesthesia as required to maintain patient at near optimal status • Typically requires a current RN license, ARNP, and current AANA recertification, and must be a graduate of an accredited school of Nurse Anesthesia.

2.16a Physician Assistant - Primary Care

Provides appropriate primary care to patients • Takes histories, orders appropriate diagnostic tests, provides treatment to minor/routine problems, and gives appropriate counseling to patients • Follows physician assistants' policies • Does not include specialized or surgical physician assistants • Typically requires a master's degree, graduation from an accredited physician assistant program, and national certification.

2.16b Physician Assistant - Specialized

Provides appropriate specialized care to patients • Takes histories, orders appropriate diagnostic tests, provides treatment to minor/routine problems, and gives appropriate counseling to patients • Follows physician assistants' policies • Include PAs not represented in 2.16a and 2.16c • Typically requires a master's degree, graduation from an accredited physician assistant program, and national certification.

2.16c Physician Assistant - Surgical

Provides primarily surgical assistance • Takes histories, orders appropriate diagnostic tests, provides treatment to minor/routine problems, and gives appropriate counseling to patients • Follows physician assistants' policies • Does not include general or specialized physician assistants • Typically requires a master's degree, graduation from an accredited physician assistant program, and national certification.

2.17 Staffing Coordinator

Updates and monitors clinical staffs' daily patient schedule • Arranges for supplemental staff • May maintain current patient list, and track patient visits statistics • This is an intermediate level position typically requiring 2-3 years of experience in a medical setting.

2.18 Surgery Scheduler

Coordinates appointments for surgeries for all physicians at the clinic or hospital(s) • Provides patient with generic preoperative information sheets • Coordinates arrangements for surgical assistants, special equipment, and surgical materials • Obtains authorization for surgery from patient's insurance company • Typically requires 3-5 years of experience in a medical setting with knowledge of medical terminology.

2.19 Operating Room / Surgical Services Aide

Assists in tasks involving patient care and maintenance of the operating room • Assists in transporting patients and sets up trays for procedures • May collect specimens, take vital signs, and give enemas • Typically requires a high school diploma or equivalent.

2.20 Operating Room Technician

Assists surgical team during operative procedures • Arranges and inventories sterile set-up for operation, and passes items as needed to the operating team • Assists in the preparation and moving of patients, and in clean-up of the operating theater • Requires completion of operating room technical course and certification, and previous experience.

2.22 ER Technician

Performs direct patient care activities under the direction of a Registered Nurse or Physician in the Emergency Department within his/her scope of practice • Requires certification as CNA or EMT • Previous experience in an Emergency Department or an acute care setting required.

2.23 Patient Care / Discharge Coordinator

Responsible for management and coordination of resources for the achievement of maximal clinical and financial patient outcomes for assigned caseload • Works as clinician, consultant, educator, and researcher to facilitate collaborative management of patient care for an entire episode of care--admission through discharge • In collaboration with physicians and other health professionals, monitors quality and continuity of care, with appropriate acuity level, resource consumption, length of stay, and discharge planning • Typically requires MSW or BSN/MSN from an accredited university, state licensure, 2 years of experience in a healthcare setting, and knowledge of utilization management, community resources, and financial and quality issues affecting patient care.

2.24 Clinical Nurse Specialist

Provides clinical expertise in defined area of specialization, such as gynecology, psychology, cardiology, oncology, and gerontology • Observes and evaluates nursing care • Plans and conducts staff development programs • Defines standards of practice in area of specialization • Functions autonomously and in collaboration with healthcare providers as a practitioner, educator, consultant and researcher • *Typically requires current State RN licensure, a master's degree in nursing, and a minimum of 3 years of experience in area of specialization.*

2.25 Telemetry / Monitor Technician

Provides surveillance of cardiac rhythms of electrocardiographic central station monitors • Recognizes, records and reports dysrhythmia and rhythm changes • Assists with cardiac rhythm interpretation • Troubleshoots technical monitor problems • *Typically requires a high school diploma or GED and completion of a course in cardiac dysrhythmia recognition and interpretation, or 1 year experience in monitor surveillance in a coronary care/telemetry unit.*

2.26 Delivery Room Technician

Assists labor team with deliveries • Restocks delivery rooms, performs set-ups and clean-ups for deliveries • Coordinates paperflow and clerical duties for labor and delivery, post partum and newborn patients • Assembles charts, schedules outpatient procedures, admit/discharges patients • Watches over newborns and may assist with feedings and vital signs • *Typically requires surgical technician certification and 1-2 years previous experience.*

2.27 Employee Health Nurse

Responsible for assuring that an organized and effective program for employee health is maintained and monitored • The Employee Health Nurse is available for employee consultations regarding health issues; actively initiates and coordinates programs and provides corrective measures to promote wellness and protect the health of employees; complies with various agency requirements pertaining to occupational health and safety • *Typically requires current State RN licensure and 2 or more years of experience in medical/surgical nursing.*

2.28 Trauma Coordinator

Coordinates and oversees the review and monitoring of trauma policies and protocols, and standards of care in accordance with requirements for trauma designation • Coordinates the process for preparation of proposals for trauma designation • Identifies problems and recommends measures to improve the care of trauma patients • Acts as liaison to local EMS agencies • Serves as Trauma Registrar, ensuring trauma registry compliance • Provides trauma related education to staff • *Requires RN with 3 years emergency department experience.*

2.29 Hospitalist

Provides the delivery of medical care for a broad range of medical conditions for the inpatient population • Orders treatments, tests, and consults with specialty physicians and primary care physician where appropriate • *Licensed physician with an MD or DO* • *May report to a medical director.*

2.30 Dentist

Diagnoses and treats diseases, injuries, and malformations of teeth and gums, and related oral structures • Examines patient to determine nature of condition, utilizing x rays, dental instruments, and other diagnostic procedures • Cleans, fills, extracts, and replaces teeth, using rotary and hand instruments, dental appliances, medications, and surgical implements • Provides preventive dental services to patient, such as applications of fluoride and sealants to teeth, and education in oral and dental hygiene • *Requires a degree in dentistry from an accredited school.*

2.31 Bariatric Program Coordinator

Responsible for coordinating all aspects of the multidisciplinary program including, but not limited to, meeting with potential candidates, coordination of patient's care, patient education, post-surgical follow-up, tracking outcomes and marketing of the program • *Requires licensure as a Registered Nurse, 3 years related experience in nursing and patient care, and 1 year of experience in marketing and/or management preferred.*

3. HOME CARE AND HOSPICE

3.01 Home Care and Hospice Director

This is the top management position within the home care and hospice division / agency • Responsible for the overall administration, management, and long range planning of the division / agency • Assesses community needs, develops targeted growth strategies, and markets division / agency services • *Typically requires State RN licensure and 5 years clinical management experience.*

3.02 Home Care Director

Responsible for the overall administration, management, and long-range planning of the Home Care Department • Includes the management of multiple disciplines which may include nursing services, physical therapy, occupational therapy, speech therapy, social work, respite care, and home helpers • *Typically requires State RN licensure and supervises 50-100 employees.*

3.03 Home Care Team Manager

Responsible for the supervision of an interdisciplinary team which usually includes: nursing, physical therapy, occupational therapy, speech therapy, social work, home health aid services, and medical record personal

- Responsibilities include, but are not limited to, utilization review of costs and services ordered; hiring, supervision and evaluation of staff; and coordination of team activities to ensure quality cost effective patient care
- Typically requires a bachelor's degree in a clinical discipline, appropriate licensure and/or state mandated registration, 3 years clinician level experience, and a minimum of 1 year supervisory level experience in a home health agency.

3.05 Home Care or Hospice Volunteer Coordinator

Responsible for the coordination of a volunteer program

- Recruits, trains, and supports the work of volunteers in specific programs such as hospice, elder outreach, and student volunteers
- Typically requires 1 year experience in working with volunteer programs.

3.06 Bereavement Coordinator - Hospice / Home Care

Plans, develops, and delivers bereavement services to family and friends (i.e., survivors) of deceased hospice patients

- Bereavement services may include distributing written bereavement materials to survivors, providing individualized counseling sessions, facilitating group grief seminars, and linking survivors with bereavement volunteers
- Maintains records which log all contacts made with survivors
- May be responsible for recruiting and training bereavement volunteers
- Typically requires a master's degree in social work or ordained clergy.

3.08 Home Health Aide (Certified)

Under the supervision of a Registered Nurse, Physical Therapist, Occupational Therapist, or Speech Therapist, provides limited nursing care and therapy services to patients in their own homes

- Requires certification as a Home Health Aide
- May report to the Home Health Aide Supervisor.

5. SOCIAL WORK / BEHAVIORAL HEALTH

5.01 Social Worker - Bachelor's

Counsels and aids patients and their families to understand and accept medical recommendations and options

- Assesses and assists with non-medical problems interfering with effective patient care
- May assist in the discharge planning process
- Typically requires a Bachelor of social work degree and 1 year of experience.

5.02a Social Worker - Master's

Counsels and aids patients and their families to understand and accept medical recommendations and options

- Assesses and assists with non-medical problems interfering with effective patient care
- May assist in the discharge planning process
- Typically requires a master of social work degree and 1 year of experience.

5.02b Licensed Independent Clinical Social Worker (LICSW)**

A sub-sector within the field of Social Work, LICSW's provide clients with support and intervention regarding mental and emotional health

- May provide specialized counsel and assistance to clients regarding mental health issues, substance abuse, public health, school social work, medical social work, marriage counseling, or children and family therapy
- May work as a member of a multi-disciplinary team, consulting with physicians, medical professionals, and therapists when appropriate
- Typically requires a master of social work degree, and 2 years of experience.

5.03 Social Work Manager

Responsible for providing social services to patients/clients and their families

- Works with physicians, nurses, patients and their families to assess patient social needs and facilitate progress of medical treatment
- Coordinates planning for post-discharge care
- Supervises professional staff
- Prepares departmental budgets and reports
- Typically requires a master's degree in social work and 4-6 years professional experience.

5.04 Chaplain

Provides spiritual and emotional support to patients and families and acts as liaison between family/patients and community clergy

- Assists with funeral arrangements, offers scripture readings, family communion or celebrations and helps with the effects of the normal grieving process
- Typically requires a master of divinity degree from a recognized theological institution with a minimum of 2 years working with the terminally ill.

5.05 Mental Health Practitioner

Provides group and individual therapy to patients

- Works closely with patient's medical providers
- Typically requires a master of social work degree, and/or ARNP/CSW, 3-5 years post-degree experience, training and experience in brief therapy; group therapy; and generalist.

5.06 Mental Health Specialist

Plans and conducts individual, group and family psychotherapy sessions in an inpatient mental health unit

- May assist in basic nursing care
- May assist in developing care plan
- Typically requires a bachelor of science degree in psychology or social work and 2 years patient care experience.

5.07 Psychologist

Assesses, diagnoses, and formulates documentation and implementation of treatment plans addressing the mental and behavioral health of patients • Provides case management through: triage; referrals; provider consultation; therapy sessions with individuals/families, and/or groups; and outside agencies • Typically requires a Ph.D. or Psy.D degree, 1 year supervised clinical internship, and additional year of supervised practice under the direction of a licensed psychologist, and state licensure.

5.08 Behavioral Health Director

Responsible for the overall administration, management, and long range planning and development of a Behavioral Health Program • Provides group and individual therapy to patients • Typically requires a Ph.D., 5 years post-degree experience in private practice, and/or community clinical setting; brief and group therapy; generalist.

5.09 Chemical Dependency Counselor

Provides direct counseling and case management services to clients with chemical dependency related problems • Provides individual, group, family, and educational services; including assessment, counseling and aftercare services • Typically requires a high school diploma or equivalent and meets the standards for Chemical Dependency Counselor Certification Board, or the Northwest Indian Alcohol-Drug Specialist Certification Board.

5.10 Psychiatric ARNP

Assesses, plans and evaluates the care of acute patients with a history of a diagnosed behavioral health issue, and those presenting with a possible secondary diagnosis related to behavioral health • Initiates and monitors care plans • Prescribes and monitors psychotropic medications • Works closely with each patient's healthcare provider(s) • Performs discharge planning • Requires a master's degree in a nursing specialty such as Mental Health, licensed as an Advanced Registered Nurse Practitioner (ARNP), and typically requires 3 years recent clinical experience in the care of psychiatric patients.

5.11 Child Life Specialist

Plans and carries out Child Life program for patients on an individual and group basis • Promotes normal growth and development and optimal adjustment of patient and family to hospitalization, illness, and disability • Develops, implements, and evaluates individual treatment plans for high priority patients • Acts as a resource and educator for medical unit staff to utilize basic child life methods and techniques • Trains and schedules unit based volunteers • Requires a Bachelor's Degree in Child Life or Certified Child Life Specialist, and 1-2 years of experience working with the infant, toddler, school age child and adolescent in a therapeutic setting.

5.12 Patient Advocate - Non RN

Provides advocacy, support, information and referrals for counseling, medical evaluation, protection issues to patients and their families referred by staff, Child Protective Services, law enforcement agencies and other community professionals • Facilitates support groups, provides education to community, networks with professionals and agencies in community • May accompany victims during investigative interview process • May provide backup coverage for Crisis Line and intervention • Typically requires a Bachelor's Degree in Social Sciences or related field and 2-3 years of experience • Typically not in risk management department.

6. LABORATORY

6.01 Laboratory Aide

Performs nontechnical laboratory tasks such as sterilizing and stocking of lab materials, preparing simple culture media, compounds and reagents, and assisting in maintaining cleanliness of the lab • Typically requires a high school diploma.

6.02 Lab Assistant

Performs simple and qualitative laboratory tests such as setting up and monitoring bacterial, fungal, and viral cultures • Typically requires a high school diploma and 1 year experience in a clinical laboratory.

6.03 Phlebotomist

Obtains blood samples by skin puncture, venipuncture, and arterial gasses • Instructs patients in proper collection of urine samples • Performs fingersticks • Prepares samples for reference labs • May perform EKGs, urinalysis, and plate cultures • May label and prepare hematology slides • Typically requires completion of a phlebotomy course or an accredited medical assistant course or 6 months laboratory experience and certification as a Healthcare Assistant.

6.05 Medical Technologist (ASCP)

Performs routine and complex analysis • Monitors quality control • Exercises independent judgment in lab decisions • May work in hematology, chemistry, microbiology • Requires a bachelor's degree in medical technology or related field and completion of a 12 month internship from an accredited training program, completion of ASCP exam, and 1-2 years medical technology experience.

6.06 Medical Lab Technician

Performs basic procedures and tests in hematology or chemistry and microbiology, urinalysis, serology under the guidance of the Medical Technologist-- limited independent judgment • Typically requires an associate degree in the clinical laboratory sciences, completion of an MLT certification exam, and 1 year medical laboratory experience.

6.07 Cytotechnologist

Stains, mounts, and studies cells of the human body to determine pathological conditions • This position typically requires a bachelor's degree from an approved school of cytotechnology and American Society of Clinical Pathologist (ASCP) or I.C.A. registration.

6.08 Cytogenetic Technologist

Establishes cultures from peripheral blood, bone marrow, amniotic fluid, and tissue biopsies, prepare stain and analyze chromosomes to present recommended diagnosis • Typically requires a bachelor's degree, certification as a Clinical Laboratory Scientist, and 2 years of experience in a cytogenetics laboratory.

6.09a Histology Technician

Cuts, mounts, and studies specimens of human tissue to provide data on functioning of tissues and organs, and the causes or progress of disease • Typically requires completion of a 2 year approved histology program or ASCP registration as a Histologic Technician.

6.09b Histology Technologist

Cuts, mounts, and studies specimens of human tissue to provide data on functioning of tissues and organs, and the causes or progress of disease • Typically requires completion of a 4 year approved histology program or ASCP registration as a Histologic Technologist.

6.10 Point of Care Testing Coordinator

Coordinates and establishes procedures for point of care testing • Monitors quality control and test results • Works with various departments and staff in implementing point of care testing programs • Typically requires a Bachelor of Science degree in related field, MT (ASCP) certification, and 1 year clinical laboratory supervisory experience.

7. PHARMACY

7.01 Pharmacy Assistant

Under the immediate supervision of a licensed pharmacist, performs typing, filing, stocking, delivery, bookkeeping, telephone answering, and other clerical duties in the pharmacy • Previously Level B certification.

7.02 Pharmacy Technician

Under the immediate supervision of a licensed pharmacist, performs manipulative, nondiscretionary functions associated with the practice of pharmacy • Enters prescription details in patient's medication profile, selects correct medication and strength, places in appropriate container, and applies label before referring to a pharmacist for review • Checks and restocks supplies, packages and labels products, fills and delivers orders • Previously Level A certification.

7.03 Pharmacist - Intern (First Year)

Under the direct supervision of a licensed pharmacist assists in the dispensing of medications and IV solutions • Transcribes physician's written and verbal orders, types labels and counts medications for review by pharmacist, fills and delivers orders • Typically requires enrollment in accredited School of Pharmacy and current Pharmacy Intern License. *Include first-year pay information only.*

7.04 Pharmacist - Resident

Works in an institutional pharmacy setting which provides a year of postgraduate training and responsibilities as prescribed by the American Society of Health System Pharmacists • Provides on-line coverage and completes clinical rotations under the supervision of preceptors in each specialty • Provides pharmaceutical care and completes assigned project(s) • Requires graduation from a recognized School of Pharmacy and state registration as a pharmacist.

7.05 Pharmacist

Compounds and dispenses drugs according to prescriptions issued by authorized medical care providers • Interviews patients regarding past medication history and allergies • Provides patients with instructions and counseling regarding medication • Provides information and consultation to medical staff • Supervises work of pharmacy assistants • This is a journey level position, requiring current State licensure.

7.06 Pharmacy Clinical Coordinator

Responsible for department clinical program activities to assure quality clinical services in assigned functional area, such as management of pharmacy ambulatory services or provision of pharmacy clinical education and coordination with other healthcare disciplines to identify and address drug therapy needs • May directly supervise and manage the performance of assigned personnel • May serve as pharmacy liaison with internal department and external medical offices/agencies • Participates in overall department strategic planning and budget management • Typically requires a registered Licensed Pharmacist, advanced degree preferred, and/or ASHP Hospital Residency Certificate, 2-4 years pharmacy experience with demonstrated clinical expertise.

8. OPTICAL

8.01a Ophthalmic Technician (Non-Certified)

Provides assistance to ophthalmologists and optometrists by collecting medical history and screening patient for visual acuity • Performs technical procedures (e.g., lensometry, keratometry, visual acuities), educates patients on eye care, contact lens care, and in preparation for surgical procedures • Assists with equipment maintenance • Prepares examination rooms for use by practitioner • Typically requires minimum experience of 1 year and demonstrated ability to perform technical procedures.

8.01b Ophthalmic Technician (Certified)

Provides assistance to ophthalmologists and optometrists by collecting medical history and screening patient for visual acuity • Performs technical procedures (e.g., refractometry, tonometry, slit lamp exam), educates patients on eye care, contact lens care, and in preparation for surgical procedures • Assists with equipment maintenance • Prepares examination rooms for use by practitioner • Typically requires minimum experience of 2 years and demonstrated ability to perform technical procedures • COT Certification required.

8.02 Licensed Optician

Guides patients in the selection of eyeglass frames and lenses that are appropriate to their individual prescriptions and cosmetic needs • Interprets prescriptions, orders eyewear from lab, adjusts and repairs eyewear • Typically requires a current State dispensing optician license and 2-3 years of experience • Sales ability may also be required.

8.03 Optometrist

Provides independent primary care specializing in the examination, diagnosis, treatment and management of diseases and disorders of the visual systems, the eye and associated structures as well as the diagnosis of related systemic conditions • Requires Doctor of Optometry degree, state Optometry license with certification to use diagnostic and therapeutic pharmaceuticals.

9. SUPPORT SERVICES

9.01 Central Services Supervisor

Responsible for 24 hour supervision and overall operations of hospital central processing (central service) functions, including staffing and scheduling; or of a major C.S. component (e.g., processing, distribution, sterilization, linen supply) • Typically requires 3 years of experience • Typically supervises 10-15 employees.

9.02 Biomedical Technician

Responsible for maintenance and repair of the electronic equipment throughout the hospital, especially patient-care equipment • This is the intermediate level typically requiring completion of a biomedical technician program, certification, and 3-5 years of experience.

9.03 Building Maintenance Worker / Mechanic

Responsible for overall building maintenance, trouble shooting and fixing heating, electrical and plumbing systems • Responsible for routine maintenance on building equipment, responsible for infectious waste removal, and light carpentry duties • Typically requires 3 or more years of experience in general maintenance.

9.04 Maintenance Engineer

Performs general maintenance and repair duties of a semiskilled nature to ensure the safe and efficient operation of the physical plant • Incumbents use independent judgment in assessing problems and devising work methods • This is the intermediate level typically requiring 2 years of experience in general maintenance work, with training and/or experience in one or more of the following areas: electrical, mechanics, plumbing, ventilation, carpentry, refrigeration, pneumatic systems.

9.05 Maintenance Engineer - Senior

Performs skilled (journey level) maintenance, repair and construction duties in one or more trades • May serve as a technical expert in a specialty field and lead the work of others • Typically performs skilled work in one or more of the following areas: electrical, mechanics, plumbing, ventilation, carpentry, refrigeration • Typically has full journey status as a trades worker or completion of a recognized apprenticeship, plus 4 years of experience.

9.06 Stationary Engineer

Operates and maintains stationary engines and mechanical equipment to provide utilities • Typically requires 5 years of experience, journeyman, fourth grade license, boiler, air conditioning, and steam.

9.07 Laundry / Linen Worker

Sorts laundry and performs duties incidental to the laundering process • Duties may include weighing loads, recording information, preparing linen and laundry for laundering process, and receiving and sorting clean linen carts • This is an entry level position typically requiring previous experience.

9.08 Housekeeper

Performs general facility cleaning and maintenance, including: dusting, mopping, vacuuming, cleaning sinks and toilets, washing and waxing floors • May include grounds maintenance • This is an entry level position.

9.09a Sterile Processing Technician (Non-Certified)

Operates autoclaves and other equipment to decontaminate and sterilize instruments and equipment, including power equipment • Inspects and assembles instruments, equipment, trays, and packs • One year specialty surgical instrument experience preferred.

9.09b Sterile Processing Technician (Certified)

Operates autoclaves and other equipment to decontaminate and sterilize instruments and equipment, including power equipment • Inspects and assembles instruments, equipment, trays, and packs • One year specialty surgical instrument experience and Central Service/Material Management Certification required.

9.09c Endoscopy Technician

Directly supports physicians and nurses with the preparation and set up of specialized procedures and equipment • Prepares and cares for medical instruments and equipment • Maintains clean examination areas; sets up rooms, cleans instruments and maintains special procedures equipment • Sterilizes equipment between patients and adheres to infection control measures • May assist physicians and nurses during exams or procedures • One year specialty surgical instrument experience preferred.

9.10 Central Service Distribution Technician

Stocks carts with linen and/or medical/surgical supplies; fills surgery case carts from predetermined listings • Applies patient charge stickers to items • Delivers linen, supplies, and equipment • Requires a high school diploma, or equivalent.

9.11 Storekeeper

Responsible for distributing the patient care and office supply needs of the hospital according to orders received • Orders supplies to maintain stock on hand • Updates inventory records • Unloads and stocks supplies • Typically requires previous stock management experience.

9.12 Transporter

Responsible for the safe and timely transportation of patients, supplies, and equipment throughout the facility • Moves gurneys or wheelchairs with patients, or carts with supplies and equipment throughout the facility in a safe and timely manner • This is an entry level position.

9.13 Parking Attendant

Directs traffic in and out of medical facility, collects parking fees, makes change and balances daily receipts and cash • Duties may include assisting patients, providing security, and garage and groundskeeping • Typically requires a high school diploma or related experience.

9.15 Security Guard (Unarmed)

Performs unarmed guarding and patrolling of premises to protect company, personal property, and personnel against fire, theft, vandalism, illegal entry, and other hazards • Tours premises periodically to check doors, windows, and gates for security • Observes departing personnel to protect against the theft of property • Examines the credentials of individuals prior to admittance to restricted areas • This is an intermediate position, typically requiring 1 year of security experience.

10. FOOD SERVICE

10.01 Food Service Cashier

Operates cash register and makes transactions • May fill in charge slips for catering • Balances daily receipts • Records cafeteria receipts • May replenish supplies • Typically requires basic mathematical and communication skills.

10.02 Food Service Worker

Serves and portions food for patients, employees, and visitors • May include duties in dishroom and/or floor pantries, trayline or cafeteria • Typically requires some food service training or experience.

10.03 Food Preparer

Performs basic food preparation in food production areas • (Includes job titles such as Salad Maker, Vegetable Preparer, Cook's Helper, Dessert Preparer, etc.) • Typically requires some food service training or experience.

10.04a Cook

Prepares food for patients, employees, and visitors • May estimate food needs and order supplies • Typically requires 1-4 years of experience in institutional quantity cooking.

10.04b Sous Chef

Actively oversees daily food production • Ensures quality control of food in all aspects of production, including food handling, preparation, service, and storage • Ensures foods are cooked to specifications and in a timely, safe manner • Leads production staff • Requires completion of an accredited 2-year Culinary Arts Food Service program or 5 years equivalent work experience in restaurant or institutional food service.

10.04c Chef

Oversees menu planning/development, food production, purchasing, and inventory control • Oversees food safety training, temperature monitoring, sanitation, and compliance • Supervises production staff • Bachelor's in food service management preferred • Typically requires 5 years minimum food production and kitchen management experience in institutional/restaurants.

10.05 Dietetic Assistant

Assists in menu processing • Prepares necessary records and reports • Typically requires a high school diploma or equivalent, and previous clerical experience.

10.06 Diet Technician

Performs technical nutritional care functions as directed by a dietitian • Supervises menu processing • Screens patients for nutritional risk • Obtains, evaluates, and utilizes dietary history information to plan nutritional care • Calculates nutritional intake analysis • May oversee the Dietetic Assistant • Typically requires an associate degree with emphasis in nutritional care that meets the educational standards established by the American Dietetic Association.

10.07 Dietitian - (Registered)

Assesses nutritional status and needs, develops and implements nutritional care plans, and evaluates and reports these results appropriately • Coordinates and supervises food service procurement, production, and distribution • Provides patient, professional, and nutrition staff education • Typically requires a bachelor's degree and an American Dietetic Association registration, and 1 or more years of dietetic experience.

10.08 Chief Clinical Dietitian

Coordinates the clinical dietitian function and supervises clinical staff to provide nutrition services • Works with medical staff, nursing services, pharmacy, and food service to provide quality nutritional care • Ensures ongoing care plans, patient education, and diet instruction • May provide nutrition education programs to outpatient groups • Typically requires a degree, current registration with the American Dietetic Association, and 3-5 years of experience.

11. HIM / CLINICAL INFORMATICS / IT

11.01a Transcriptionist

Transcribes dictated reports of any specialty to include histories and physicals; operative reports; pathology, radiology, laboratory reports; discharge summaries and physician progress notes • May use voice recognition software, and edit material for grammar and clarity • Typically requires graduation from an accredited medical transcription course with a strong knowledge of medical terminology, the ability to type 55-60 WPM accurately, and 2-3 years of experience.

11.01b Scribe**

Accompanies physician/provider during the patient examination in order to transcribe in the electronic medical record (EMR) the nature of the patient visit • Lists all proper diagnoses and symptoms, as well as follow up instructions and prescriptions for the patient as dictated by the physician/provider • Maintains patient confidence and complies with all regulatory requirements • Typically requires a high school diploma or equivalent • May require certification as a medical scribe by the American College of Clinical Information Managers (ACCIM), and 1-2 years of healthcare experience in a hospital or clinical environment.

11.02a Health Information Management (HIM) Technician

Responsible for maintaining the order of patient charts and filing all correspondence, lab, and x-ray reports as well as dictated notes into patients' charts • Photocopies or scans patient records • Researches location of charts and may provide back-up on phones • May include electronic (EMR) and paper-based record systems • This is an entry level position, typically requiring a high school diploma or GED and typically 6 months general clerical experience.

11.02b Health Information Management (HIM) Data Integrity Specialist

Responsible for updating and revising electronic medical record systems to assure data integrity, including merging patient records, making online corrections, and resolving errors affecting patient identity • Works with other departments causing errors and affected by them, and coordinating complex corrections in a timely manner • Typically requires a minimum of an associate degree and RHIT or RHIA certification.

11.03 Registered Health Information Technician / Coder (RHIT)

Responsible for reviewing discharge abstracts and patient charts in order to assign the appropriate ICD-CM/CPT codes to diagnoses and procedures • Reviews charts for potential liability risk and documents specific information as necessary • Performs studies as requested by physicians or administration • Maintains State reporting documentation for certain procedures in compliance with regulations • Typically requires an AA degree in Medical / Health Records, RHIT or CCS Certification by the American Health Information Management Association, and a minimum of 6 months to 1 year experience.

11.04 Compliance & Coding Specialist

Supports and provides compliance and coding training to physicians, clinic personnel, and corporate auditing and billing staff • Performs medical record audits according to corporate compliance and coding plan, and provides immediate feedback and training to appropriate physician and support personnel • Reviews insurance carrier payment denials, recommends appropriate billing corrections, and provides training to clinic and corporate business personnel • Typically nonexempt level, bachelor's degree or equivalent with CPC certification, with a minimum of 2 years healthcare training and medical service compliance and coding experience.

11.05 Certified Tumor Registrar (TNM Staging)

Performs Tumor Registry abstracting activities • Performs TNM staging • Attends Tumor Board meetings and records Tumor Board and meeting events • Collects and prepares statistical and other appropriate cancer related data for requested studies • Maintains tumor registry database • Requires certification as Tumor Registrar and/or RHIT, and 1 year previous tumor registry or medical records experience. TNM (tumor nodes metastases) staging is the process which gives the prognosis indicating the severity of the disease and survival chances.

11.06 Imaging Library Assistant

Responsible for the processing of incoming orders for procedures in the Medical Imaging departments • Provides reception for patients/visitors and escort as necessary • Files and retrieves records and films • Maintains integrity of patient records contained within Film Library • Typically an entry level position requiring a high school diploma or equivalent. 2 years of experience in hospital or clinic environment is preferred.

11.07 Picture Archive Communications System (PACS) Administrator

Responsible for the daily operational administration and implementation of Picture Archiving & Communication Systems (PACS) requirements to include diagnostic workstations, modality connectivity, modality acquisition, modality upgrades, PACS upgrades, image transfer, and interfaces • Formulates and defines ongoing PACS scope and objectives • Is primary troubleshooter on application logic difficulties and works through to resolve and document • Typically requires a degree and 3-5 years of experience in a healthcare environment working with computers or Radiology technology.

11.51 Clinical Systems Specialist

Provides direct end-user support services to patient care teams in clinical work settings to facilitate the introduction, acceptance, integration, and effective use of computerized patient care management systems • Provides a visible, accessible, and on-going Medical Informatics presence in the medical office to support and assist end-users in all aspects of information systems and computer usage • Expertise and focus will be centric to the ambulatory care system with general knowledge of supporting ancillary systems • Requires a bachelor's degree and 2-3 years of experience working with a clinical system. (Does not require an RN.)

11.52 Clinical Informatics Specialist

Coordinates and facilitates application system implementations and upgrades for information systems supporting patient care functions • Develops training plans and enables users to maximize ancillary, nursing, and related clinical systems capabilities • Typically requires an RN degree (BSN preferred, advanced degree desired), 2 years clinical nursing experience in a patient care setting, and 2-3 years of experience with systems implementation and support.

11.53 Clinical Systems Analyst

Responsible for successful completion of assigned tasks for clinical application implementations, including one or more of the following: process evaluation and documentation; participation in the development of prototype design and build; testing; and project implementation support • Provides ongoing support of clinical application systems as needed to support production operations (day-to-day sustaining) • Typically requires a bachelor's degree and a minimum of 2 years work experience in Information Services.

11.54 Clinical Systems Analyst - Senior

Working with key stakeholders, end users, and team members, identifies and resolves issues throughout system development phases of assessment, design build, testing, training, and implementation • Provides ongoing support of clinical application systems as needed in support of project operations (day-to-day sustaining.) • Responsible for taking a senior role on tasks and mentoring other clinical systems analysts as appropriate. May lead the work of other staff members • Typically requires a bachelor's degree and a minimum of 5 years of experience in an Information Services environment.

11.60 Informatics Pharmacist

Responsible for providing support and expertise in oversight of pharmacy automation systems • Works collaboratively with others to facilitate and optimize the functioning of pharmacy electronic systems including the electronic record for order entry and medication use processes • Actively participates in decisions impacting information systems for the entire health-system • Creates and maintains documentation, including policy and procedures, for information systems • Requires current State licensure • Requires Pharmacy Informatics Residency training or equivalent work experience in practice and informatics.

11.62 Clinical Data Abstractor

Responsible for supporting Clinical/Peer Review database management • Collects, analyzes, and reports data for databases such as core measures, Clinical Outcomes Assessment Program (COAP), American College of Cardiology (ACC), and Society for Thoracic Surgeons (STS) • Works with various clinical areas to coordinate and improve data collection • Analyzes data, identifies trends, patterns, and profiles, and reports findings • May make recommendations for process improvements • Registered Nurse with at least 2 years clinical experience required.

11.63 Clinical Data Analyst

Responsible for maintaining multiple quality-related databases and associated decision support tools • Creates queries, reports, and interprets data to meet federal, state and accrediting regulations and in support of the clinical effectiveness program • Develops and maintains data solutions using analytical and clinical data systems • Coordinates the planning, defining, and testing of new measures, development and documentation of data or automation collection processes, validate data accuracy, and improvement of data collections • Bachelor's degree required • Minimum of 3 years related experience required • Clinical experience preferred.

11.65 Clinical Documentation Analyst

Responsible for improving the overall quality and completeness of clinical documentation, performing clinical documentation review and admission/continued stay reviews • Facilitates modifications to overall quality and completeness of medical record documentation, through extensive interaction with physicians, nursing staff, other patient caregivers, and coding staff to ensure that appropriate reimbursement is received for the level of service rendered to patients • This is a professional level position requiring a licensed RN, 5 years of recent clinical experience to include ICD coding experience.

11.70 Help Desk Coordinator I

Provides support services to internal and/or external users of the organization's computer systems and data processing network • Acts as a first level problem identification and resolution resource, including answering questions, providing advice, troubleshooting, and following-up to assist users in solving their own data processing problems • Coordinates user problem resolution with other data processing sections if necessary, and tracks and reports recurring problems • This is a senior level nonexempt or entry level exempt position, typically requiring 2 years related data processing experience.

11.71 Help Desk Coordinator II

Provides support services to internal and/or external users of the organization's computer systems and data processing network • Acts as a second level problem identification and resolution resource, including answering questions, providing advice, troubleshooting, and following-up to assist users in solving their own data processing problems • Coordinates user problem resolution with other data processing sections if necessary, and tracks and reports recurring problems • Typically requires 3-4 years related data processing experience.

11.72 IT Application Analyst

Analyzes and modifies data systems • Resolves system related problems through appropriate research methods and communication with user department personnel and vendor personnel • Analyzes reports in relation to system capabilities • Follows department procedures relative to request tracking and documentation • Analyzes and modifies the system design • Develops procedures to process information • Intermediate level, with 3-5 years of experience and healthcare systems knowledge.

11.73 Network Administrator

Installs, configures, and maintains software and hardware connected to the network server and workstations • Interfaces with other departments, vendors, or consultant to resolve problems • Ensures conformance with IT and company objectives • Provides training or individual assistance to users • Oversees backup and security procedures • Plans for hardware and software upgrades • Coordinates the work of outside specialists • This is an intermediate level position typically requiring 2-4 year's of network support experience • May require Microsoft or Novell network engineer certification.

12. BUSINESS OFFICE

12.01 Patient Account Representative

Researches patients' questions about accounts, makes adjustments to patients' accounts, responds to written correspondence from patients, researches and reconciles credit balances • Typically requires 1 or more years of experience in patient accounts, and extensive knowledge of medical insurance, CPT and diagnosis codes.

12.02a Biller

Performs medical billing functions to third party payors • Reviews itemized bills to verify accuracy and completeness of charges • Researches denied or incomplete bills • Codes and/or verifies ICD coding • Researches and resolves minor patient complaints • Typically requires 2 years billing experience.

12.02b Payment Poster / Charge Entry

Ensures that all third-party and self-pay payments, adjustments and denials are posted to facilitate timely, accurate management of accounts receivable • Typically requires a minimum of 1 year of medical insurance and/or payment posting background in a physician office or hospital patient accounting office environment.

12.03 Financial Counselor

Verifies insurance coverage and benefits for patients by telephoning insurance companies and employers • Pre-verifies insurance and obtains necessary deposit when required • Assists and advises the patient in obtaining alternative financial sources to finance their obligations • Coordinates with physician office second opinion and pre-authorizations and post notification requirements of third party payors • Files legal documents as required • Typically requires a high school diploma, some credit and collection experience, knowledge of insurance procedures, and knowledge of general office procedures.

12.04 Collections Counselor

Contacts and arranges payment plans for overdue balances through direct patient contact • Coordinates payment with third party payor • Typically requires 1 or more years of collection experience in a medical setting.

12.05 Reimbursement Recovery Specialist

Investigates codes in which insurance companies disallow reimbursement • Coordinates changes in insurance regulations and provides in-servicing to other patient account representatives • Corresponds with third-party insurance companies who provide them with information necessary to assist them in determining more appropriate reimbursement levels • Updates physicians regarding preferred CPT codes • Typically requires a bachelor's degree and 2-3 years of experience in a medical setting with extensive knowledge of CPT and ICD coding • May include home care reimbursement.

12.06a Clinic Reimbursement / Coding Specialist

Completes on-site routine and complex encounter form coding for ambulatory professional services; acts as clinic site expert on third party billing, cash management, referral, and coding processes • Typically requires a bachelor's degree and 1 year vocational training in related field, and a minimum of 1 year ambulatory practice experience • Typically requires CPC certification and 1 year experience with coding ICD, CPT, and HCPCS.

12.06b Charge Capture Specialist

Ensures that all appropriate billing charges are being captured, documented, charged and reimbursed for the assigned department • Working with the appropriate staff/team members, identifies, researches and analyzes billing errors and/or omissions • May provide training to staff engaged in billing data entry and related charge-capture/reconciliation activities • Typically requires completion of a recognized course of study for health information practitioners or coding specialist and 2 years coding experience in an acute hospital health information management department.

12.07 Accounts Receivable Cashier

Receives all insurance checks • Runs daily tapes on insurance voucher checks • Receives and sorts business office mail • Interacts with patients on a daily basis • Typically requires computer, typing, and 10 key skills; and knowledge of insurance companies and their billing and reimbursement procedures • Typically requires 1 or more years of experience as an A/R cashier in a medical office setting.

12.08 Chargemaster Analyst

Plans and performs advanced price modeling activities for major services lines • Performs complex financial / statistical analyses related to revenue cycle matters associated with chargemaster • May perform special project assignments with respect to applicable regulations and the overall revenue cycle • Consults with other revenue cycle departments • Typically requires a bachelor's degree and 4 or more years related experience.

12.11 Patient Registrar / Patient Access Representative

Responsible for welcoming the patient into the care delivery setting and initiates the documentation required for the patient's clinical care as well as the financial clearance • Ensures accurate patient admission/ registration • Works closely with both the financial team and the clinical team to ensure the optimum patient experience, accurate registration, and maximum cash flow and reimbursements • Typically requires knowledge of medical terminology and insurance/ payor requirements, vocational or 2 years college level education and 1 year patient registration or healthcare business office experience • National Certification preferred.

12.30 Referral Authorization Coordinator

Expedites the administrative requirements for patient referrals, dealing directly with health plans • Makes decisions and authorizes risk plan referrals, utilizing guidelines • Requires knowledge of coding • Typically requires an AA degree or equivalent experience, and 3 years healthcare insurance or related experience.

12.32 Claims Processor

Responsible for reviewing referrals and reconciling claims against referrals after services have been provided • Reviews referrals for completeness of information and gathers additional information as needed to complete referrals • Enters referrals on the information system • Typically requires a high school degree and 2 years prior work in a medical office setting.

12.33 Contract / Provider Network Specialist

Responsible for analysis and participates in negotiation of payor contracts • Coordinates and disseminates contract information within the organization • This position does not include supervisory responsibilities • Typically requires a bachelor's degree in related field, and 2-4 years of recent contract negotiation experience.

13. ADMINISTRATIVE SERVICES

13.08 Telephone Operator

Responsible for operating the telephone communication center between the public and patients, physicians, and personnel • Typical duties may include answering a multi-line phone, triaging emergency calls and routing them to appropriate personnel, assigning and distributing paging equipment, instructing employees in the use of voice mail, and opening and sorting mail • May monitor emergency security systems • Typically requires a high school diploma and 6 months related experience.

13.09 Medical Receptionist

Answers and screens phone calls and takes messages • Schedules appointments • Obtains billing information • Checks in patients • Maintains medical charts • Files medical charts • Intermediate level position typically requiring 6 months to 1 year experience as a receptionist in a medical setting.

13.10 Patient Appointment Coordinator

Answers phones, triages patient calls, and schedules physician and ancillary service appointments on computer • Typically requires 2 years of medical reception experience and basic computer knowledge.

13.12 Receptionist

Answers phones, greets visitors, light typing, photocopying, and distributing documents for business or administrative offices • Provides backup to administrative secretary • This is an entry level position.

13.13a Administrative Secretary

Provides general secretarial support for administrators • Handles confidential information • Acts as information source on organizational policies and procedures • Arranges meeting and appointment schedules • This is an intermediate level secretarial position typically requiring 2-5 years secretarial experience.

13.13b Executive Assistant

Provides administrative support of a highly complex and responsible nature to senior management (excluding CEO) • Interfaces with high level internal/external contacts requiring considerable discretion and initiative • May research background material and collect data for office profit plans, reports, speeches, and correspondence • May carry out assignments relating to civic or committee activities involving fund raising, membership drives, and social functions of senior management • Coordinates schedules for meetings, arranges appointments, and schedules visitors • Works independently in answering telephone calls and routine correspondence • Exercises judgement to reflect executives' style and company policy • Typically supports SVP or EVP level • *Typically requires extensive secretarial experience to executive level management.*

13.13c Executive Assistant to CEO

Provides administrative support of a highly complex and responsible nature to the chief executive officer • Interfaces with high level internal/external contacts requiring considerable discretion and initiative • May research background material and collect data for office profit plans, reports, speeches, and correspondence • May carry out assignments relating to civic or committee activities involving fund raising, membership drives, and social functions of the CEO • Coordinates schedules for meetings, arranges appointments, schedules visitors, and keeps CEO's calendar • Works independently in answering telephone calls and routine correspondence • Exercises judgement to reflect the CEO's style and company policy • May supervise clerical support staff • *Typically requires extensive secretarial experience to executive level management.*

13.14 Medical Interpreter

Interprets or translates information between limited English-speaking patients and medical personnel or others as necessary • Translates written materials as needed • *Requires knowledge of medical terminology, and competency in English and one or more other needed languages.*

13.15 Credentialing Specialist

Coordinates all aspects of the privileging and credentialing process for the healthcare provider • Processes applications, verifies information, researches application details, and assures process is in accordance with medical staff bylaws • *This is an advanced level clerical position, typically requiring business or vocational training, and 3 years medical secretarial experience.*

13.16 Medical Staff Coordinator

Coordinates and facilitates activities of medical staff committee meetings • Acts as a liaison between medical staff and administration • Acts as a resource to medical staff regarding medical staff bylaws, rules, regulations, and policies • Performs executive secretarial and office services for elected chair and medical staff officers • This is a senior level clerical position • *Typically requires business or vocational training or AA degree, 3 years of experience in Medical Staff Support Services, and Certification as a Medical Staff Coordinator* • *In smaller organizations, may also perform credentialing functions.*

13.19 Buyer / Purchasing Agent

Compiles the necessary information and takes independent action to procure supplies, materials, equipment and services • Prepares bid invitations and conducts bid openings; examines bids for compliance with procurement requirements • Has extensive contact with vendors to obtain prices and specifications of products • No direct supervisory responsibilities • Intermediate level position generally requiring course work at the college level with emphasis in business administration and demonstrated knowledge of materials purchased and sources of supply • *Typically requires 2-3 years buying experience.*

13.21 Financial Analyst / Decision Support

Responsible for business plan development and pro formas, including budget development, staffing, capital requests, volume projections, and revenue analysis • Understands reimbursement methodologies and cost structure • *This is an intermediate level position, typically requiring a degree in accounting, finance, or business with 3 years of experience in healthcare finance and a working knowledge of IDC and CPT coding.*

13.22 Payroll Specialist

Analyzes, prepares, and inputs payroll data, typically using an automated system to produce accurate and timely payroll • Reviews and resolves errors from edits • Resolves employee and supervisory payroll questions • Analyzes payroll reports and provides results to supervisor • *This is an intermediate level position requiring 2-4 years of accounting/payroll related experience and data terminal input skills.*

13.23 Benefits Specialist

Identifies and resolves benefit questions through research and policy interpretation • Communicates with active and retired employees, human resource staff and consultants • May assist with special projects within the benefits area • *Typically requires current knowledge of company benefit programs and 1-2 years of related experience.*

13.24 Human Resources Assistant

Performs a variety of routine tasks such as maintaining records, compiling statistics, data entry, and processing employment applications • Furnishes employee information to authorized persons, and assists employees on matters regarding personnel forms, records and procedures • *Typically requires experience in human resources or a related field, and 1-2 years clerical experience.*

13.25a Human Resources Generalist

Administers programs, procedures, and plans used in carrying out human resource policies • Provides guidance to executives, managers, supervisors, and employees on various human resource issues • Areas of expertise may include one or more of the following specialties: employee relations, employment, affirmative action, compensation, benefits, safety, and training • *This is the intermediate level human resource staff professional with no supervisory responsibility, typically requiring a degree and 2-4 years of experience.*

13.25b Human Resources Generalist - Senior

Administers programs, procedures, and plans used in carrying out human resource policies • May include strategic business partner duties • Provides guidance to executives, managers, supervisors, and employees on various human resource issues • Areas of expertise may include one or more of the following specialties: employee relations, employment, affirmative action, compensation, benefits, safety, and training • *This is the senior level human resource staff professional, typically requiring a degree and 5 or more years of experience.*

13.26a Recruiter

Supports management in recruiting and placing applicants to fill open positions • Develops advertising and recruitment plans • Screens employment applications • Interviews applicants • Coordinates interviews with managers • May conduct orientation for new employees • May be involved in entry level employee relations interactions • *Typically requires a bachelor's degree and 2 years personnel experience.*

13.26b Recruiter - Senior

Sources, recruits, and interviews candidates for all job levels (including professional, technical, and management positions), refers applicants to specific job openings, checks references and may process changes in employee employment status (hires, promotions, transfers, etc.) • May have EEO and affirmative action responsibilities • May have lead responsibilities • *This is the senior level, typically requires a degree and demonstrated interviewing skills, knowledge of modern employment practices and related laws, and 5+ years experience in recruiting.*

13.27 Recruiter - Physicians

Implements the physician recruitment program • Recruits qualified physicians for medical staff and assists in the development of strategic physician recruitment plans • Coordinates comprehensive physician recruitment programs to ensure adequate complement of physicians in accordance with needs and goals of the employer and medical staff • Assists in assessing immediate and long-term needs for physicians and services • Assists in developing strategies for attracting proper mix of medical practitioners and/or specialists • *Typically requires a bachelor's degree and 4 years of related experience.*

13.28 Accounts Payable Clerk

Performs moderately complex clerical assignments in accordance with standard procedures • May handle reconciliations, billing, and balancing • Resolves problems in recurring assignments in accordance with previous training and experience • *This is the intermediate level typically requiring 1-2 years of related experience.*

13.29 Accountant

Performs a wide variety of regular and recurring moderately complex accounting functions requiring full professional competency • Establishes and maintains accounting records • Maintains one or a combination of general accounting, budget, or cost systems • Assists in interpreting accounts and records for administrative officers • May balance books, prepare tax reports, or other special projects • May direct lower level employees • *This is an intermediate level professional accountant, typically requiring a degree and 2-4 years of experience.*

13.30 Accountant - Senior

Performs complex accounting functions including fiscal interpretation and analysis requiring full professional competency • Establishes and maintains new accounting and fiscal control records and procedures used in an organizational unit • Interprets accounts and records for administrative officers • Prepares fiscal analyses such as revenue projections or cost/benefit analyses • May perform some internal audit procedures • May direct the work of lower level accountants or accounting clerks • *This position is the senior level in the professional accounting family, typically requiring a degree in accounting and 5+ years of experience.*

14. QUALITY ASSURANCE

14.01 Quality Assurance Analyst

Retrieves data from medical records using criteria established by healthcare professionals • Performs on-going monitoring and generic screens to identify cases for professional review • Tabulates data, writes reports, and performs appropriate statistical tests • *Typically requires RHIA or RHIT, and prior experience in chart analysis.*

14.02 Quality Assurance Coordinator - RN

Plans and evaluates multidisciplinary, process improvements relating to quality of clinical care/practice/service • Serves as a consultant on the Joint Commission Standards and other regulatory requirements • Monitors trends and participates in the determination of need for further assessment and improvement • Recommends policy and procedure changes to improve care and patient outcomes using clinical knowledge base • Maintains and enhances a variety of databases, statistics and reports • Typically requires a Degree in Nursing, college level course work in statistical analysis, and 3 years of clinical experience in an acute-care setting, and 1 year of experience in quality assessment and improvement work.

14.04 Case Manager - RN

Assesses, plans, and evaluates the care of a designated case load of patients for the purpose of assuring the achievement of clinical and financial outcomes • May participate in the development of clinical pathways • In collaboration with all disciplines, identifies appropriate use of resources • Oversees and monitors care delivered to assigned designated caseload • Maximizes positive financial outcomes assuring patient charges are accurate through proper documentation • Monitors admission and continued stay criteria for all payors and responds to third party payor requests related to claims, denials, appeals, and quality concerns • Contributes to modification/changes in nurse and physician practice patterns to continuously maximize patient outcomes, improve quality of care, and control use of resources • Requires RN licensure, master's level nursing training preferred, and several years clinical experience; certification in specialty area preferred.

14.06 Epidemiologist - Infection Control Nurse - Non M.D.

Performs surveillance and data collection/analysis of hospital's infection-control program • Serves as a member of the Infection Control Committee • Directs and /or coordinates the hospital's educational efforts with respect to the infection control and waste disposal program • Typically requires current RN licensure, knowledge of epidemiology, or a bachelor's degree in microbiology or M.T. with previous experience.

14.08 Utilization Review Coordinator - RN

Under general direction, using appropriate criteria, reviews chart documentation to justify patient care in order to meet agency reimbursement requirements and to justify admission, treatment and length of stay • Concurrently monitors patients to assure the appropriateness of admission, continued hospitalization, length of stay, utilization of resources, and any potential denial of payment issues • Evaluates documentation regarding severity of illness and intensity of service for variation from regulatory agency standards; consults with physician advisor as necessary to resolve deviations; documents patient needs for continued hospitalization • Typically requires a nursing degree and 3 years hospital experience.

14.09 Utilization Review Coordinator - Non RN

Under general direction, using appropriate criteria, reviews chart documentation to justify patient care in order to meet agency reimbursement requirements and to justify admission, treatment and length of stay • Concurrently monitors patients to assure the appropriateness of admission, continued hospitalization, length of stay, utilization of resources, and any potential denial of payment issues • Evaluates documentation regarding severity of illness and intensity of service for variation from regulatory agency standards; consults with physician advisor as necessary to resolve deviations; documents patient needs for continued hospitalization • Certified as a Registered Health Information Technician (RHIT) and 2 years of healthcare related experience preferred.

14.12 Patient Navigator**

Creates optimal experience for patients and families, and is focused on the patient experience • Assists patients, families, and caregivers in overcoming barriers to care such as financial, transportation, housing, insurance coverage, medication co-pays, emotional support, cultural issues, and complex service needs • Participates in care coordination with other healthcare professionals, family, and community service providers to facilitate care for patients, and arrange supportive services as needed • Typically requires 2 years of healthcare experience.

15. ADMINISTRATION

15.01 Administrator on Duty / House Supervisor

Acts as the Administrator on Duty to make administrative decisions, provide direction and supervision with operational issues for all hospital departments • Facilitates patient flow and delivery of services, manages float pool on a 24 hour basis • Typically requires a BSN, current RN license and 3-5 years management experience in a clinical setting.

15.02 Patient Access Manager

Manages the activities of the admitting office • Supervises admission of inpatients and registration of outpatients and short stay surgery patients • Works with physicians and nurses to ensure efficient use of hospital beds • Supervises staff, prepares budgets and reports • Ensures that necessary insurance information and legal authorizations are obtained • Typically requires an associate degree and 4-6 years of experience, including 2 years supervisory experience • May not be top level in large organization.

15.03 Patient Access Supervisor

Responsible for the daily operation of all registration areas • Recruits, trains, and supervises staff in pre-admission, inpatient, outpatient, emergency, insurance verification, financial counseling, reception, and cashiering • This is a first line exempt supervisor • Associate degree preferred • Typically requires 2-4 years of experience in a healthcare setting.

15.04 Biomedical Engineering Supervisor

Provides engineering review and guidance for all areas involving medical instrumentation, in-house services for calibration, repair, and safety of all medical instrumentation according to established guidelines • Typically requires a bachelor's degree in Engineering (M.S. or certification in Biomedical Engineering), and 4-5 years of experience • Typically supervises 4-10 employees.

15.05 Business Services Director

Provides direction to accounts receivable billing, charging, reimbursement, Medicare compliance and customer service • Ensures quality of billing systems and processes to include charges, claim submission, cash applications, and optimization of reimbursement • Manages department budget and resources to organizational priorities • Typically requires a bachelor's degree in Finance or related field, or at least 5 years management experience in a hospital patient account department.

15.06 Business Office Manager

Manages the activities of the patient accounting and collection functions • Establishes policies and procedures for patient billing, advance payments, collections, and third-party payments according to administrative and legal requirements • May also be responsible for the inpatient/outpatient admitting function • Typically requires a degree and 3-5 years of experience.

15.07 Business Office Supervisor

Oversees a Business Office function such as reimbursement, insurance, patient accounts, and managed care • Assists the Business Office Manager in developing departmental policies and procedures • Acts as resource to Clinical Staff regarding health insurance claims and maximizing reimbursement • Responsible for selection, training, and performance evaluations of department staff • Typically requires 3 years of experience in medical office billing including 1 year as supervisor.

15.08 Cardiac Services Manager

Responsible for oversight on all cardiovascular services with the hospital and its associated clinics to assure a positive perception to the community • Works closely with hospital administration and other staff as well as physicians to enhance the hospital's cardiovascular services • Top department level, over multiple services • Typically requires a bachelor's degree in the health or business field and 5 years clinical or healthcare management experience.

15.09 Chief Engineer / Director of Plant Operations

Directs the overall hospital operation of Plant Operations, maintenance, and construction • Responsible for the safe and efficient operation of institution service systems in conformity with fire, safety, sanitary, and medical requirements • May manage additional areas such as Biomedical and/ or Security Services • Typically requires a B.S. or bachelor of engineering degree in appropriate field and a minimum 6 years of experience in plant operations; 2 of which must be in a supervisory capacity.

15.10a Clinic Administrative Supervisor - Non RN

Provides supervision for daily operations of assigned outpatient clinic section (i.e. patient care team, front desk, records, ancillary services) • Ensures optimal daily patient flow and allocation of resources to meet demand for services with available staff • Addresses patient care or service problems as necessary • This position typically requires an associate degree or equivalent plus 3 years increasingly responsible healthcare operations experience • Bachelor's degree in health sciences, business or related area • RN not required.

15.10b Clinic Manager I

Directs the business, technical, and nursing support activities of a medical clinic • Works with clinic physicians to maintain and improve support services • Functional areas may include laboratory, pharmacy, radiology, physical therapy, dental care, and other specialty services • Supervises clinic staff, prepares budgets and reports • Responsible for space planning, maintenance, procurement of supplies, and contract services • This is the top non-physician position, typically requiring a degree and 4-6 years of experience, including 3 years supervisory experience • May include clinics with fewer than 3 multi-specialty areas and/or 10 or fewer physicians/ARNPs/PAs.

15.11 Clinic Manager II

Directs the business, technical, and nursing support activities of a multi-specialty medical clinic • Works with clinic physicians to maintain and improve support services • Functional areas may include laboratory, pharmacy, radiology, physical therapy, dental care, and other specialty services • Supervises clinic staff, prepares budgets and reports • Responsible for space planning, maintenance, procurement of supplies, and contract services • This is the top non-physician position, typically requiring a degree and 4-6 years of experience, including 3 years supervisory experience • Typically includes clinics with more than 3 multi-specialty areas and/or 11-30 physicians/ARNPs/PAs.

15.12 Clinic Manager III

Directs the business, technical, and nursing support activities of a multi-specialty medical clinic • Works with clinic physicians to maintain and improve support services • Functional areas may include laboratory, pharmacy, radiology, physical therapy, dental care, and other specialty services • Supervises clinic staff, prepares budgets and reports • Responsible for space planning, maintenance, procurement of supplies, and contract services • This is the top non-physician position, typically requiring a degree and 4-6 years of experience, including 3 years supervisory experience • Typically includes clinics with multi-specialty areas and more than 30 physicians/ARNPs/PAs.

15.13 Collection Supervisor

Supervises collection employees and oversees and coordinates collection activities • Resolves complex collection issues, follows up on unresolved issues including insurance denials, and or patient complaints • Maintains quality customer service • Gathers and provides statistical information • Reviews all financial assistance applications • May represent the facility in court collection activities, assist in special collection accounts and arranging special payment plans • This is a first line supervisor typically requiring 3-5 years of experience • Typically supervises 5-15 employees.

15.14a Controller

Responsible for the management and maintenance of general accounting systems to provide records of the assets, liabilities, and financial transactions of the organization • Provides financial reports • Maintains or oversees the maintenance of general and subsidiary ledgers of the company, financial statements, reconciliations and general tax reports • Develops and directs the operation of additional accounting systems and procedures to reduce costs and obtain improved information • Typically requires a CPA license and a minimum of 5 years of experience at the controller level.

15.14b Revenue Cycle Director / Manager

Oversees payor contracting, underpayment analysis, reimbursement audits, charge master maintenance and compliance, charge master maintenance and compliance, charge capture, pricing strategies, compliant document management program, compliant billing and related financial/business analysis, under the direction of the Chief Financial Officer • Facilitates effective relations with payors and providers related to managed care plans • Directs the strategy, analysis, reporting and negotiation of rates • Typically requires a degree, and 7 years of experience in related field.

15.15 Corporate Compliance Officer

Responsible for designing, implementing, and managing ongoing audit activities and educational programs to ensure proper reimbursement and compliance with all regulatory statutes • Typically requires 5 years of experience, training and education as a Certified Procedural Coder (CPC), Registered Health Information Technician (RHIT), Registered Health Information Administrator (RHIA), or the equivalent of a bachelor's degree in health or business or RN.

15.16 Diagnostic Imaging Director

Responsible for the administration, technical direction, and long range planning for the Diagnostic Imaging Department and other imaging services such as radiology, special procedures, ultrasound, angiography, nuclear medical, etc. • This is the top non-physician management position within imaging • Typically oversees over 60 employees • Typically requires a degree and 4-6 years of experience.

15.17 Diagnostic Imaging Manager

*Manages several diagnostic imaging departments such as radiology, ultrasound, nuclear medicine, and computed tomography • Responsible for technical direction and overall operations • Typically supervises 40-50 employees • Requires a degree, certification with ARRT, and 3-5 years of experience • *Intended to be the top level of this function within smaller organizations (i.e. less than 1,000 employees), or the mid-management level within larger organizations (over 1,000 employees).**

15.18 Diagnostic Imaging Supervisor

Supervises one or more diagnostic imaging services • Evaluates quality of radiographs, procedures, and services • Responsible for the selection, training, and performance for compliance with accreditation, legal, and other regulatory requirements • Typically requires certification with the American Registry of Radiologic Technologists and 3 years of experience as a Radiology Technologist, including 1 year of supervisory experience.

15.19 Breast Center Manager

Manages overall operations for screening and diagnostic mammography • Directs business, technical, and support activities • May be responsible for multi-site clinics • Typically supervises 15 – 25 staff • Typically requires degree and 3-5 years of experience in an imaging modality.

15.20 Employee Health Manager

Manages the programs, services and operations of the employee health programs • Responsible for the administration of ongoing health programs for employees and volunteers, and the provision of medical/health services for staff and volunteers • May work collaboratively with infection control and workers' compensation • Supervises employee health clinical and non-clinical staff • Typically requires current State RN licensure and experience in outpatient and/or employee health or clinical experience.

15.21 Environmental Services Director / Manager

Directs environmental services (typically housekeeping, linen, and grounds) to ensure that the medical center is maintained in a sanitary, attractive, and orderly condition to meet Joint Commission on Accreditation of Hospitals and state and local standards • Provides overall planning and procedures for space planning, maintenance, preventative maintenance, and quality control programs for housekeeping, linen, and grounds • Supervises staff and prepares budgets and reports • May evaluate and purchase required supplies and contract services • The top level departmental position, typically requiring a bachelor's degree and 4-6 years of experience, including 2-3 years supervisory experience.

15.22 Environmental Services / Housekeeping Supervisor

Maintains housekeeping standards including training and supervising staff • Inspects cleaning to ensure work meets established standards • Recommends repair work and reports unsafe conditions • Performs cleaning and supplying of offices and patient areas • Typically requires 2-3 years of experience.

15.23a Food Services Director

Plans, directs, and supervises all dietary and related food services functions • Develops, manages, and maintains diet and menu planning (both therapeutic and non-therapeutic) • Supervises the proper storage and preparation of food supplies and equipment and the maintenance of food service areas according to sanitation standards • Plans and monitors departmental budget • Typically requires 4-6 years related experience • This position does not require an R.D. License • This is the top level food services position within larger organizations.

15.23b Food Services Manager

Directs all dietary and related food services functions • Provides overall management of diet and menu planning (both therapeutic and non-therapeutic) • Ensures the proper storage and preparation of food supplies and equipment and the maintenance of food service areas according to sanitation standards • Procures or oversees procurement of food from vendors • Typically requires 3-5 years related experience • This position does not require an R.D. License • Intended to be the top level of this function within smaller organizations (i.e. less than 1,000 employees), or the mid-management level within larger organizations (over 1,000 employees).

15.24 Food Services Supervisor

Supervises employees performing duties such as food preparation, production, and serving • Monitors use of food, labor, and supplies • Typically requires an associate degree in food service management or related field, or a high school diploma and 4 years of experience including 1 year as Lead, Supervisor or equivalent • Typically supervises 15-30 employees.

15.25 Foundation Director I

Plans, implements, and administers fund raising programs which generate revenue from individuals, corporations, foundations, organizations, special events, and marketing partnerships • Collaborates with the Foundation Board and organization management to establish plans, and evaluate effectiveness of plans • May oversee planned giving, annual giving, and major gifts programs, special events, donor relations and related research, and funds development • May report to Administrator/CEO or Associate Administrator • Typically requires a bachelor's degree in a business, marketing, or community relations field, and a minimum of 5 years of experience as a development professional with proven success in managing a diversified fund raising program. Intended for organizations with annual fund raising programs LESS THAN \$1 million.

15.26 Foundation Director II

Plans, implements, and administers fund raising programs which generate revenue from individuals, corporations, foundations, organizations, special events, and marketing partnerships • Collaborates with the Foundation Board and organization management to establish plans, and evaluate effectiveness of plans • May oversee planned giving, annual giving, and major gifts programs, special events, donor relations and related research, and funds development • May report to Administrator/CEO or Associate Administrator • Typically requires a bachelor's degree in a business, marketing, or community relations field, and a minimum of 5 years of experience as a development professional with proven success in managing a diversified fund raising program. Intended for organizations with annual fund raising programs OVER \$1 million.

15.27 Foundation Manager - Annual Giving

Plans, implements, and analyzes the results of annual campaigns, such as direct mail, personal solicitation, commemorative giving, telethons, or campaigns to physicians, Trustees, employees, and volunteers • Coordinates and manages all aspects of annual giving campaigns, including budgets, preparation of support materials, program promotion, and report generation • Manages processes through which gifts are received, recorded, acknowledged, and distributed • Typically requires a bachelor's degree with a minimum of 2 years of experience in Fund Development.

15.28a Foundation Specialist

Assists foundation activities by coordinating designated special events • Promotes the programs of foundation giving through graphics/communication projects and general support of foundation events and activities • Typically requires at least 1 year work experience in special events and volunteer coordination with a bachelor's degree in Liberal Arts, Public Relations or Communications preferred.

15.28b Grant Writer

Develops resources, researches funding sources, and writes proposals to support the grant writing and reporting activities of medical and specialty services

- Negotiates and writes budgets for grant contracts
- Monitors the expenditure of multiple grant sources assuring compliance with grant activity and reporting requirements
- May participate in long range planning and quality assurance

• Typically requires a bachelor's degree and 3 years of experience.

15.28c Major Gifts Officer

Senior level staff position primarily responsible for identifying, cultivating, and stewarding major donors

- Procures gifts typically greater than \$10,000
- Prepares proposals and conducts personal visitations and other high-level interactions with prospects
- May organize events

• Requires a bachelor's degree and 5 years development experience.

15.29a Human Resources Director (>1,000 Employees)

Develops and/or implements human resource policies and programs within the policy guidelines set by top management

- Typically directs the following human resources functions: staffing, affirmative action, wage/salary and benefit administration, training and development, safety and health, and employee services
- Directs the activities of professional Human Resource staff

• Typically requires a degree and 8-10 years of experience. *Not intended for smaller organizations (i.e. less than 1,000 employees). This is typically the 1st or 2nd level of this function within larger organizations (over 1,000 employees). This position typically has subordinate managers.*

15.29b Human Resources Manager

Develops and/or implements human resource policies and programs within the policy guidelines formulated by top corporate human resource or general management

- Typically directs the following human resources functions: staffing, affirmative action, wage/salary and benefit administration, training and development, safety and health, and employee services
- Usually supervises the activities of professional and clerical Human Resource staff

• Typically requires a degree and 5-8 years of experience. *Intended to be the top level of this function within smaller organizations (i.e. less than 1,000 employees), or typically the 2nd or 3rd level within larger organizations (over 1,000 employees).*

15.30 Laboratory Director

Provides overall technical and administrative management such as policy development and budgeting for a clinical laboratory operation

- Oversees activities of laboratory technical and ancillary staff

• Functional areas may include microbiology, histology, pathology, and related support services

- Typically requires a master's degree in medical technology

• This is the top level laboratory position within larger organizations, overseeing 25 or more employees.

15.31 Laboratory Manager

Provides overall technical and administrative management such as policy development and budgeting for a clinical laboratory operation

- Supervises and coordinates activities of laboratory technical and ancillary staff

• Functional areas may include microbiology, histology, pathology, and related support services

- Typically requires a master's degree in medical technology, certification with the ASCP, and 4 years medical technologist experience to include 2 years in a lead capacity

• May manage a unit within a large laboratory, or the entire laboratory within a smaller organization.

15.32 Laboratory Assistant / Phlebotomy Supervisor

Supervises phlebotomist/lab assistants within a facility

- Trains employees and monitors/evaluates staff performance

• Typically requires previous supervisory experience, may be a Medical Technologist or Medical Lab Technician

- Typically supervises 6-25 employees.

15.33 Laboratory Supervisor

Provides laboratory service and supervisory work directing the work of technical staff performing tests in the clinic laboratory

- Responsible for the selection, training, and performance evaluation of department personnel
- Monitors departmental performance for compliance with accreditation, legal and other regulatory requirements

• This is a first-line supervisor, typically requiring certification as a Medical Technologist (ASCP) and 3 years of experience as a medical technologist including 1 year of supervisory or lead experience.

15.34 Maintenance Supervisor

Oversees management of physical facilities and related services including maintenance, electrical equipment, and grounds maintenance

- Supervises department staff

• Reports to Director of Facilities / Assistant Administrator

- Typically requires 3 years of experience in building / grounds maintenance management and 1 year experience in a healthcare setting preferred.

15.35 Management Information Systems Director

Provides overall direction for MIS activities within the organization

- Provides data processing services to all user departments
- Establishes technical standards, methods, and priorities
- Advises senior management on data processing plans, projects, and capabilities

- Supervises all information systems staff

• Typically requires a B.S. degree in computer science with a minimum of 3 years of experience in a healthcare MIS department. *Intended to be the top level of this function within smaller organizations (i.e. less than 1,000 employees), or typically the 2nd or 3rd level within larger organizations (over 1,000 employees). Do not match CIO here.*

15.36a Physician Liaison / Community

Supports the strategic marketing and service objectives of the organization • Responsible for promoting core and specialty services to the physician community • Provides support services in all functional areas of sales including the utilization of affiliate services, cultivating and strengthening referral activities by implementing and promoting professional services • Serves as a role model and resource within service lines and throughout the organization • *Typically requires a bachelor's degree and a minimum of 3 years of experience in direct sales and business development programs.*

15.36b Marketing and Public Relations Director

Develops, implements, and manages a coordinated approach to marketing and community and public relations • Responsible for planning, budgeting, program and practice development, advertising, and media relations that reflect current market research data • Assists directors in the identification and development of systems and service delivery improvements • Writes advertising, copy, and patient education brochures • *Typically requires a B.S. or B.A. degree in marketing, public relations, or program development, and a minimum of 3 years of experience in healthcare services, marketing, public relations, program development, advertising management, and media relations.*

15.37 Materials Management Director / Manager

Directs the management of support services including the acquisition, storage, processing and distribution of all materials • Oversees functional areas such as Dietary, Central Supplies, Stores, Purchasing, Central Print, Mail Services, and Pharmacy • Assures the development and maintenance of various materials systems for charging patient use items and supporting departmental operations • May negotiate with vendors on items having large financial impact on the institution • *Typically the top level Materials Management position requiring a degree and 3-5 years of experience.*

15.38 Materials Management Supervisor

Plans, organizes, and directs the purchasing, receiving, distribution and storage functions of facility • Conducts inventories and cost-benefit analyses in product / service selection • Responsible for the selection, training and performance evaluations of department staff • *Typically requires 3 years of experience of materials management including 1 year as supervisor in healthcare organization.*

15.40 Health Information Management (HIM) Director

Overall responsibility for direction of HIM and other related services, including electronic medical records • Oversees managers or supervisors of any or all of the above • *Typically requires RHIA certification with strong management background.*

15.41a Health Information Management (HIM) Supervisor**

Manages daily operation of HIM department, including electronic medical records • Establishes systems and procedures for the distribution and use of medical records throughout the facility • Responsible for the selection, training, and performance evaluation of department personnel • *Typically requires 3 years of experience in medical records including 1 year as supervisor in a healthcare setting.*

15.41b Coding Supervisor*

Supervises Coding Specialists and coding functions • Coordinates activities of the department with other departments and outside agencies • Serves as expert resource to other departments and services in the areas current coding, billing and regulatory guidelines • *Typically requires associate's degree, coding certification, and 3 years of experience* • *May require RHIA (Registered Health Information Administrator) or RHIT (Registered Health Information Technician) certification.*

15.42 Nursing Director

This is the number two nursing position in an acute medical setting • Coordinates administrative and/or clinical functions in nursing units, clinics, and treatment or diagnostic areas such as respiratory therapy, dialysis, and pulmonary function • Directs areas through subordinate managers • *Typically requires a current RN licensure, master's preferred, 3-5 years supervisory experience, and 3 years nursing experience.*

15.43 Associate Director - Patient Care Services

This is the top nursing position (typically not a VP level) • *Directs and coordinates the activities of patient care divisions or departments (e.g., responsibilities include inpatient nursing units, surgical services, and may also include other areas such as Ambulatory Nursing, Imaging Services, Occupational, Physical or Respiratory Therapy)* • Participates with the top management team in formulating, administering and evaluating organizational strategy and policy • Provides direction for Nursing Service management staff/department heads on the development and maintenance of division/department budgets • *Typically supervises 4-10 department heads and/or management staff* • *Typically requires a Master's degree in Nursing Administration and 5-8 years of experience.*

15.44 Nursing Department Manager / Supervisor - Clinic

Manages nursing services in a clinic setting • Directs the day-to-day activities of the nursing department • Works directly with physicians regarding their practice related to the nursing department • *Typically requires a BSN, 3-5 years supervisory experience, and 3 years nursing experience.*

15.45 Nursing Manager - Acute Care (Single Unit)

Manages nursing services on a 24-hour basis for an individual clinical unit, such as Labor and Delivery, Intensive Care, or a Medical Surgical Unit • Plans and supervises patient care, manages nursing and support personnel assuring that appropriate continuing education is maintained, and resolves emergency and problem situations • *Responsibility typically includes developing or contributing to annual operating budget and monitoring expenses within prescribed parameters* • Typically requires a degree in nursing and 3-5 years combined clinical or supervisory experience.

15.46 Nursing Manager - Acute Care (Multiple Units)

Manages nursing services on a 24-hour basis for a group of clinical services • Plans and supervises patient care, manages nursing and support personnel assuring that appropriate continuing education is maintained, and resolves emergency and problem situations • *Responsibility typically includes developing or contributing to annual operating budget and monitoring expenses within prescribed parameters* • Typically requires a degree in nursing and 3-5 years combined clinical or supervisory experience.

15.47 Nursing Shift Supervisor

Coordinates nursing functions of a unit on a particular shift • Ensures that quality patient care is provided on assigned shift according to policies and procedures and assists in monitoring the overall performance of nursing units and services • Typically requires a degree and 2-4 years nursing experience including some supervisory responsibilities.

15.49 Pharmacy Director

Directs all aspects of the pharmacy to ensure proper preparation and distribution of drugs • Directs overall staffing, proper inventory management, quality assurance, IV services, inpatient/outpatient services, and clinical collaboration with nursing and medical personnel regarding pharmaceutical utilization • May direct research activities, satellite pharmacies or additional functioning areas • Typically requires current registration and pharmacist licensure, an advanced degree, and 4-6 years pharmacy experience plus supervisory experience • Typically supervises 25-40 employees.

15.50 Pharmacy Manager

Directs pharmacy operations to ensure proper preparation and distribution of drugs • Monitors inventory levels and directs purchasing of drugs and supplies as needed • Provides consultation to medical staff and nursing personnel regarding pharmaceutical utilization • May direct research activities • Typically requires an advanced degree, a state pharmacy license, and 4-6 years of experience.

15.51 Planning and Business Development Director

Directs the long range and program planning functions of the organization • Develops feasibility studies for new programs and ventures • Prepares Certificate of Need applications and environmental impact statements for projects • Reports to the CEO or Associate Administrator • Typically requires master's degree and 3-5 years healthcare planning experience.

15.52a Rehabilitation Services Director

Oversees all operations of multiple Rehabilitation Services departments to include speech, occupational therapy, physical therapy, and sports medicine • Responsible for the financial management of departmental budget • Typically requires a master's degree, and 4-6 years of related clinical experience • This is the top level rehabilitation services position within larger organizations.

15.52b Rehabilitation Services Manager

Responsible for the administration of multiple Rehabilitation Services departments to include speech, occupational therapy, physical therapy, and sports medicine • Typically requires a master's degree, clinical experience, and 3-5 years supervisory experience • Typically supervises 15-30 employees.

15.53 Rehabilitation Services Supervisor

Directs the activities of the occupational therapy and/or physical therapy sections • Works with physicians, nurses, patients and their families to assess patients' occupational and/or physical therapy needs and to plan treatment programs to maximize patient performance within the limits of their disability • Supervises professional staff, aides, and students • Prepares departmental budgets and statistical reports • Typically requires a degree, current registration with the American Occupational Therapy Association and/or a Registered Physical Therapist license, and 2-4 years combined clinical and supervisory experience.

15.54a Respiratory Care Director

Provides guidance and control of the activities of the respiratory therapy section • Directs and controls the provision of diagnostic, treatment, and educational services for patients with respiratory disorders • Responsible for management of departmental budgets and reports, and maintains department records and statistics • Typically requires RRT registration and 5-7 years of experience • This is the top level respiratory care position within larger organizations.

15.54b Respiratory Care Manager

Directs the activities of the respiratory therapy section • Plans and directs provision of diagnostic, treatment, and educational services for patients with respiratory disorders • Supervises technical staff and students • Prepares departmental budgets and reports • Evaluates new equipment and procedures • Typically requires RRT registration and 4-6 years of experience, including 2 years supervisory experience.

15.55 Security Services Manager / Director

Directs hospital security services • Develops internal and external security plans for the hospital • Responsible for parking and transportation services • Typically requires knowledge of the criminal justice system, law enforcement courses, or a B.A./B.S. degree, and a minimum of 3-5 years of experience in the security field with 2 years supervisory experience • Typically supervises 9-12 employees.

15.56 Surgical Services Manager

Manages surgical nursing and support functions • Provides for the orientation of specially trained nursing and technical personnel and monitors their performance • Directs the scheduling of patients for surgery and assistance to physicians in preparation and performance of patient surgery • Assures the effective utilization of personnel, equipment, and supplies • In addition to in-patient operating room functions, may be responsible for anesthesia, outpatient surgery, and recovery room services • Typically requires a master's degree in nursing or equivalent and 3-5 years of experience.

15.57 Transcription Supervisor

Schedules, assigns, and supervises work of the transcription department • Ensures that physician dictations are completed in a timely manner • Responsible for the selection, training, and performance evaluations of department personnel • Typically requires graduation from a technical school of medical transcription program or equivalent program, and 3 years of experience as a transcriptionist including 1 year as supervisor.

15.58 Volunteers Director

Responsible for recruiting, training, directing, and coordinating the activities of volunteers • Coordinates with agency programs and schools in the use of volunteers • Engages in fund raising activities on behalf of the auxiliary and hospital • May be responsible for the gift shop • Typically requires a bachelor's degree plus 2-5 years of experience in volunteer services • Typically supervises 1-3 employees; average number of volunteers supervised is 150 plus.

15.59 Volunteer Coordinator

Responsible for coordinating daily operations of volunteer programs • Provides initial screening, orientation, and training of volunteers • Oversees daily schedules, volunteer assignments, and special projects • Develops and maintains service descriptions • Typically requires 1-2 years of experience in volunteer management.

15.60 Research Coordinator

Coordinates, compiles, and maintains data relating to clinical trials, research protocols, or other research activity in support of federal, commercial, or privately funded research activities (Job specifics vary depending on area to which individual is assigned) • Typically requires a high school education and additional coursework in areas of science, healthcare, or related fields, and a minimum of 1 year experience in related area.

15.61 Sleep Disorder Center Manager

Oversees the daily functions of the Sleep Center • Ensures high quality, cost effective patient care is provided during Sleep Center procedures • Responsible for the successful operation of the Sleep Center, which may include financial management and marketing • Typically requires a bachelor's degree in business or healthcare related field, registration by the Board of Polysomnographic Technologists, 3+ years of experience as a Sleep Tech, and 2+ years progressive supervisory and management experience.

15.62 Service Line Director

Leads growth, development and operational effectiveness of a comprehensive service line, e.g., oncology, cardiac, women's, orthopedics • Develops and implements program plans, goals and targets to grow and enhance the service line • Leads multidisciplinary teams to develop and implement protocols, policies and procedures, cost reduction efforts, marketing campaigns and outreach efforts, quality outcomes tracking and reporting, and patient experience initiatives in order to achieve growth goals, financial targets, quality outcome goals, and high patient, employee and physician satisfaction • Management level position, broad in scope • Typically requires a bachelor's degree (masters preferred) plus 5 years management experience.

15.65 Process Improvement / Lean Facilitator

Consults with management throughout the organization on the continuous quality improvement process, organization effectiveness, and the management of change • Identifies critical issues and facilitates the design and implementation of organization-wide programs and systems • Serves as facilitator or member of quality action teams and other organizational efforts using Lean principles / methodologies • Typically requires a bachelor's degree in social science, business or related field and experience in implementing continuous quality improvement.

15.71 Medical Staff Services Manager

Responsible for supervisory and administrative work in directing and coordinating the Medical Staff Services Department • Responsible for the coordination of all operational aspects of the department, including organizing and conducting programs and establishing procedures for medical staff functions • Updates and maintains systems (physician privileges, medical staff roster, Medical Staff Bylaws, etc.) • Evaluates effectiveness of all Medical Staff department programs, analyzes trends and implements changes as required • Assures continued accreditation with regulatory organizations • Typically requires a bachelor's degree and 3 years of experience with medical staff credentialing.

15.73a Quality Assurance Director

Functions as an information coordinator for the hospital-wide quality assurance program • Directs development of monitors, including generic screens, to assess the quality of care provided to patients • Supports the overall quality assurance reporting system to assure that information is being channeled to appropriate oversight committees • Provides consultation to healthcare providers as needed to facilitate problem-focused studies of patient care, which may include advice and support for clinical/legal implications of quality issues • May include Risk Management responsibilities • Typically requires an RN or RHIA with strong information management background, a working knowledge of quality assurance, and demonstrated ability to work collaboratively with other hospital healthcare providers • Typically supervises 4-8 employees.

15.73b Quality Manager

Identifies, integrates, and manages process improvement methodologies to facilitate and influence sustainable performance improvements • Oversees complex analysis of data for use in data driven improvements • Acts as liaison regarding performance improvement initiatives and activities among stakeholders at all levels of the organization • Works collaboratively with risk management to investigate significant and seminal events and coordinate the root cause analysis process • Provides oversight for department staff and ensures accurate reporting of quality outcomes to appropriate registry as required • Typically requires a bachelor's degree, licensure or certification in a recognized health discipline, and 5 years of experience.

15.75 Care Management Director

Organizational leader of the Care Management program • Responsible for the coordination of all services and resources related to the program • Acts as the liaison within the organization for issues related to the Care Management program • Ensures that the program provides services in support of organizational goals and patient care initiatives • Typically requires a Master's degree in Nursing, Social Work or a closely related field, current licensure as an RN or Licensed Independent Clinical Social Worker (LICSW), 3 years of clinical experience with 5 years in management or leadership experience in care management functions.
